

CD 50n

CD 50n High-Resolution Network Digital Audio and CD Player

Elite CD Sound

Forty years after the creation of the Compact Disc, Marantz is revealing even more details than ever. A class-leading DAC is at the heart of CD 50n enabling clear and pure digital to analog conversion.

Your Favorite Streams in One Place

HEOS® Built-in is engineered to maximize your enjoyment however you stream it. Support for Spotify Connect, Airplay 2, Bluetooth, Tidal, TuneIn, and many more make discovering music in high fidelity exciting and easy.

TV on Your Stereo

Unlock your TV sound by connecting it to CD 50n. With a single HDMI cable between your TV and CD 50n, you can hear shows, movies, and games at their finest through your stereo system. Video streaming players, game consoles, and even your smart TV's built-in apps will play with extraordinary clarity.

Custom Marantz Musical Digital Filters

Not content with off-the-shelf solutions, we've engineered custom switchable digital filters. This critical step in digital to analog conversion contributes to CD 50n's clear and detailed yet spacious and warm sound.

Ultra-High Resolution

Hear music with the highest fidelity. Stream up to PCM 192/24 and DSD 128 through HEOS. External sources connected through USB-B can resolve even more with support up to PCM 384/32 and DSD 256.

Five-Year Warranty

Marantz is built with care, passion and excellence. A five-year parts and labor warranty protects your investment in the Most Musical Sound.
