

# SubZero

ACTIVE PA SPEAKER/SUBWOOFER  
USER MANUAL

## EN WARNING!

Do not open cover. No user-serviceable parts inside. Refer servicing to qualified service personnel.  
Do not place the product in a location near a heat source such as a radiator, or in an area subject to direct sunlight, excessive dust, mechanical vibration or shock.  
The product must not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the product.  
No naked flame sources, such as lighted candles, should be placed on the product.  
Allow adequate air circulation and avoid obstructing vents (if present) to prevent internal heat build-up. The ventilation must not be impeded by covering the appliance with items such as newspapers, tablecloths, curtains etc.

## CZ VAROVÁNÍ!

Nezakývaje. Uvnitř nejžadné součásti opravitelné uživateli. S požadavkem na servis se odkažte na kvalifikované servisní oddělení.  
Neumistujte produkt v blízkosti zdroje tepla, jako je radiátor, nebo na místě s přímým slunečním světlem, nadměrným prášení, mechanickými vibracemi nebo šokem.  
Produkt nesmí přijít do kontaktu s vodou a žádné objekty naplněné tekutinami, jako například vázy, by neměly být umístěny na produkt.  
Žádné zdroje otevřeného ohně, jako například svíčky, by neměly být umístěny na produkt.  
Umožňte dostatečnou cirkulaci vzduchu a vyhněte se obstrukci ventilátorů (pokud jsou přítomné) pro předejďte interní přehřívání. Ventilace nesmí být narušena překrytím zařízení výrobky jako např. noviny, kuchyňské úterky, záclony apod.

## DK DVARSEL!

Dækslet må ikke åbnes. Ingen bruger-udskiftelige dele indeni. Overlad service til kvalificeret service personale  
Placer ikke produktet i nærheden af varmekilder såsom en radiator eller i direkte sollys, meget støv, mekaniske vibrationer eller stød  
Produktet må ikke udsettes for vand eller stænk, og ingen genstande fyldt med væske, f.eks. vaser, må anbringes på produktet  
Må ikke placeres nær åbenild, tænde stearinlys må ikke placeres på produktet  
Var sikrer på at der er tilstrekkelig luftcirkulation og undgå at dække ventilatører (hvvis der er nogen) for at undgå at produktet bliver varmt. Ventilationen må ikke blokeres med overdækning af apparatet med genstande som avis, duk, gardiner osv.

## NL WAARSCHUWING!

Maa de behuizing niet open. Dit toestel bevat geen onderdelen die door de gebruiker kunnen worden vervangen. Laat onderhoud over aan een bevoegde onderhoudspersoneel.  
Plaats het produkt niet in de buurt van een hittebron zoals een radiator of in directe zonlicht of in een stofrijke omgeving, mechanische vibratie of schok.  
Plaats het produkt niet in de buurt van spattende of lekkende voorwerpen gevuld met een vloeistof zoals bijvoorbeeld een vaas.  
Er mogen geen open vlammen zoals aangestoken kaarsen op de apparatuur worden geplaatst.  
Zorg om overhitting te voorkomen voor voldoende ventilatie en bellenmerk ventilatieroosters niet. Bedek het produkt niet met dingen zoals kranten, tafellakens, gordijnen etc.

## FI VAROITUS!

Älä avaa kannata. Ei sisällä käytäjää-huollettavia osia. Huollot saa suorittaa vain pätevä huoltomies.  
Älä salylta tuotteta minäkin kuuman lahella kuten pateni tai suorassa auringonpaisteessa, polyleissä, mekanisessa väriässä tai ikusssa  
Tuotteta ei saa istuttaa tiuppolaukkaa tai loiskeelle tai nesteitä sisältäviä tuotteita kuten maljakko eivät saa olla tuotteen lähetystyllä.  
Avotulla kuten sytytetty kynttilä ei saa olla tuotteen päällä.

Salli riittävä ilmankierto ja vältä tuluetusaukkojen tukkiminen (jos sellaisia on olemassa) estämään sisäisen lämmön muodostumisen. Tuuletusta ei saa estää peiltämällä laite esineillä, kuten sanomalehdillä, pöytälinoililla, verhoilla jne.

## FR ATTENTION!

Ne pas ouvrir le couvercle. Aucune pièce interne réparable par l'utilisateur. Confier la réparation à du personnel de réparation qualifié  
Ne pas laisser l'appareil à proximité d'une source de chaleur telle qu'un radiateur, dans un endroit directement exposé aux rayons du soleil, trop poussiéreux, ou pouvant subir des chocs mécaniques L'appareil ne doit pas être exposé aux gouttes d'eau et aux éclaboussures, et aucun objet rempli de liquide, tel qu'un vase, ne doit être posé dessus  
Ne placer aucune source de flamme nue, telle qu'une bougie allumée, sur l'appareil  
Assurer une circulation d'air suffisante et éviter d'obstruer les fentes (le cas échéant) afin d'éviter une surchauffe interne. La ventilation ne doit pas être bloquée en couvrant l'appareil avec des objets tels que des journaux, des nappes, des rideaux, etc.

## DE WARNUNG!

Öffnen Sie nicht das Gehäuse. Im Inneren befinden sich keine vom Benutzer zu wartenden Teile. Überlassen Sie Wartungsarbeiten qualifiziertem Fachpersonal.  
Stellen Sie das Produkt nicht an einen Ort in der Nähe einer Wärmequelle wie etwa eines Heizkörpers oder in einem Bereich mit direktem Sonnenlicht, übermäßigem Staub, mechanischen Vibratoren oder Stößen. Schützen Sie das Produkt vor tropfenden oder spritzenden Flüssigkeiten, und stellen Sie keine mit Flüssigkeiten gefüllten Gegenstände wie Vasen auf das Produkt.  
Offene Feuerquellen wie Kerzen dürfen nicht auf dem Gerät abgestellt werden.  
Sorgen Sie für eine ausreichende Luftzirkulation und vermeiden Sie, dass die Lüftungsschlitze (falls vorhanden) abgedeckt werden, um einen internen Wärmestau zu verhindern. Die Belüftung darf nicht durch Abdecken des Gerätes mit Gegenständen wie Zeitungen, Tischdecken, Vorhängen usw. blockiert werden.

## IT AVVERTIMENTO!

Non aprire il coperchio. Se fosse necessario, riferirsi ad un esperto.  
Non esporre il prodotto a fonti di calore, luce del sole diretta, polvere, vibrazioni meccaniche o altri possibili shock.  
Non esporre il prodotto a perdite di liquido o a spruzzi. Non appoggiare nessun oggetto contenente acqua sul prodotto.  
Non esporre il prodotto a fuoco, candele o oggetti simili.  
Assicurarsi la circolazione dell'aria e non ostruire le ventole, se presenti, per evitare il surriscaldamento. La ventilazione non deve subire impedimenti dovuti a giornali, tovaglie, tende, ecc.

## NO ADVARSEL!

Ikke åpne dekslet. Innholder ingen deler som kan brukes. Overlat reperasjon til kvalifisert servicepersonell.  
Ikke plasser produktet i nærheten av varmekilder som f.eks. en radiator, eller i områder som er utsatt for direkte sollys, mye stov, mekanisk vibrasjon eller stat.  
Produket må ikke utsettes for dypning eller sprutting, og gjenstander som er fylt med væske, som f.eks. vaser, skal ikke plasseres på produktet.  
Åpne flammer, som f.eks. tente lys, bør ikke plasseres på produktet.  
Produktet tilstrekkelig luftcirkulasjon og unngå å blokkere ventilatører (hvis tilstede) for å forhindre intern varmeoppsamling. Pass på at ventilasjon ikke hindres ved å unngå å dekke apparatet med ting som viser, bordduker, gardiner osv.

## PL OSTRZEŻENIE!

Nie otwierać pokrywy. W środku nie ma części nadających się do naprawy przez użytkownika. Prosimy pozostawić serwis dla szkolenego personelu.  
Nie umieszczać produktu w pobliżu źródła ciepła, np. grzejnika, lub w bezpośrednim świetle słonecznym, kurzu, czy mechanicznym wibracjach.  
Produkt ten nie może być eksponowany na kipielaniu lub chlapaniu, a przedmioty wypełnione płynami, takie jak waza, mogą być na nim umieszczone.  
Źródło otwartego ogniwa, takie jak np. świeca, nie powinny być umiejscowione na produkcie.  
Należy zapewnić odpowiednią wentylację w unikaniu blokowania otworów wentylacyjnych, aby uniknąć wewnętrznego wzrostu temperatury. Wentylacja nie powinna być utrudniana poprzez nakrywanie urządzeń gazetami, obrusami czy zasłonami.

## PT ATENÇÃO!

Não abra a tampa. Não tente a reparação do instrumento por si. Dirija-se a pessoal qualificado.  
Não exponha a uma fonte de calor excessivo ou exponha o produto à luz solar, poeira, vibração ou choque.  
Não mantenha o produto num local húmido ou perto líquidos como vasos, etc.  
Não exponha o produto a fontes de fogo vivo, como velas.  
Mantenha o produto num espaço suficientemente arejado de forma a evitar sobre-aquecimento. Não bloquee a ventilação do instrumento, cobrindo-o com artigos como cortinas, toalhas de mesa ou jornais

## SK VÝSTRAHA!

Neotvárajte kryt. Vo vnútri nie sú žiadne súčasti, ktoré sú opraviteľne užívateľom. S požiadavkou na servis sa obráťte na kvalifikované servisné stredisko.  
Nevytájte produkt do blízkosti akéhokoľvek tepelného zdroja ako napr. radiátora, alebo do kontaktu so slnečným žiaridlom, nadmerným prásťom prostredim, mechanickým vibráciám alebo šokom.  
Produkt nesmie prísť do kontaktu s vodou a žádný objekt naplněný vodou, ako napr. váza, nesmie byť umiestnený na produkt.  
Žiadne výrobky s otvoreným ohňom, ako napr. sviečky, by nemali byť umiestnené na produkte.  
Naleží dostačovať cirkulácii vzduchu a zabrániť obstrukcii ventilácia výrobkov (ak sú prítomné) kvôli prevencii vnútorného prehrievania. Ventilácia nesmie byť narušená prekrytím zariadenia výrobkami ako napr. noviny, kuchyňské úterky, záclony a pod.

## SI OPOROZILO!

Ne odpirajte pokrovka. V notranjosti ni nobenih delov, ki jih uporabnik lahko sam popravlja. Popravilo prepustite usposobljenemu osebu  
Ne postavljajte izdelka na lokacijo v bližini vira topote, kot je radiator, ali na območje, ki je izpostavljeneno neposredni sončni svetlobi, pretiranim prahu, mehanskim tresljajem ali udarcem  
Izdelek ne sme biti izpostavljen kapljjanju ali brihanju in nobenim predmetom, napolnjenim z vodo, kot so vase, ne se smuje postavljati na izdelek  
Nobenega od virov odprtrega ogniwa, kot so vžgane sveče, se ne sme postavljati na izdelek  
Zagotovite zadostno krznenje zraka in umaknite ovire na odpiranje (če obstajajo), zaradi preprečevanja kopiranja notranje toplotne. Ventilacijo se ne sme ovirati s prekrivanjem naprave s predmeti, kot so časopisi, pri, zavez itn.

## ES ADVERTENCIA!

No abra la tapa. No intente reparar el aparato usted mismo. Llélévelo a reparar por personal calificado.  
No coloque el aparato cerca de fuentes de calor excesivo o donde esté expuesto a la luz solar directa, golpes, vibraciones o polvo.  
Evite lugares expuestos a humedad. No ponga objetos llenos de líquidos en la superficie de este aparato.  
Mantenga suficiente espacio alrededor del aparato para permitir una ventilación adecuada. No obstruya la tapa con objetos como periódicos, manteles, cortinas, etc.

## SE WARNING!

Oppna ej locket. Ingå användarvänliga delar inuti. För reparation vänd er till kvalificerad servicepersonal. Slätt ej produkten vid en värmevägg t.ex element, i direkt solljus, damm, elektronisk vibration eller shock. Produkten bör ej bli utsatt för droppande eller stänk och inga objekt fyllda med vätskor som t.ex vaser skall ställas på produkten.  
Ingen källa till öppna flammor som t.ex tända ljus bör placeras på produkten.  
Tillåt tillräcklig luftcirkulation och blockera ej eventuella ventilatörer för att undvika intern överhettning. Ventilen bör ej täckas av föremål såsom tidningar, dukar, gardiner etc.

---

## INTRODUCTION

Thank you for purchasing the Subzero D Series Speaker/Subwoofer.  
To get the most out of your product, please read this manual carefully.

### BOX CONTENTS

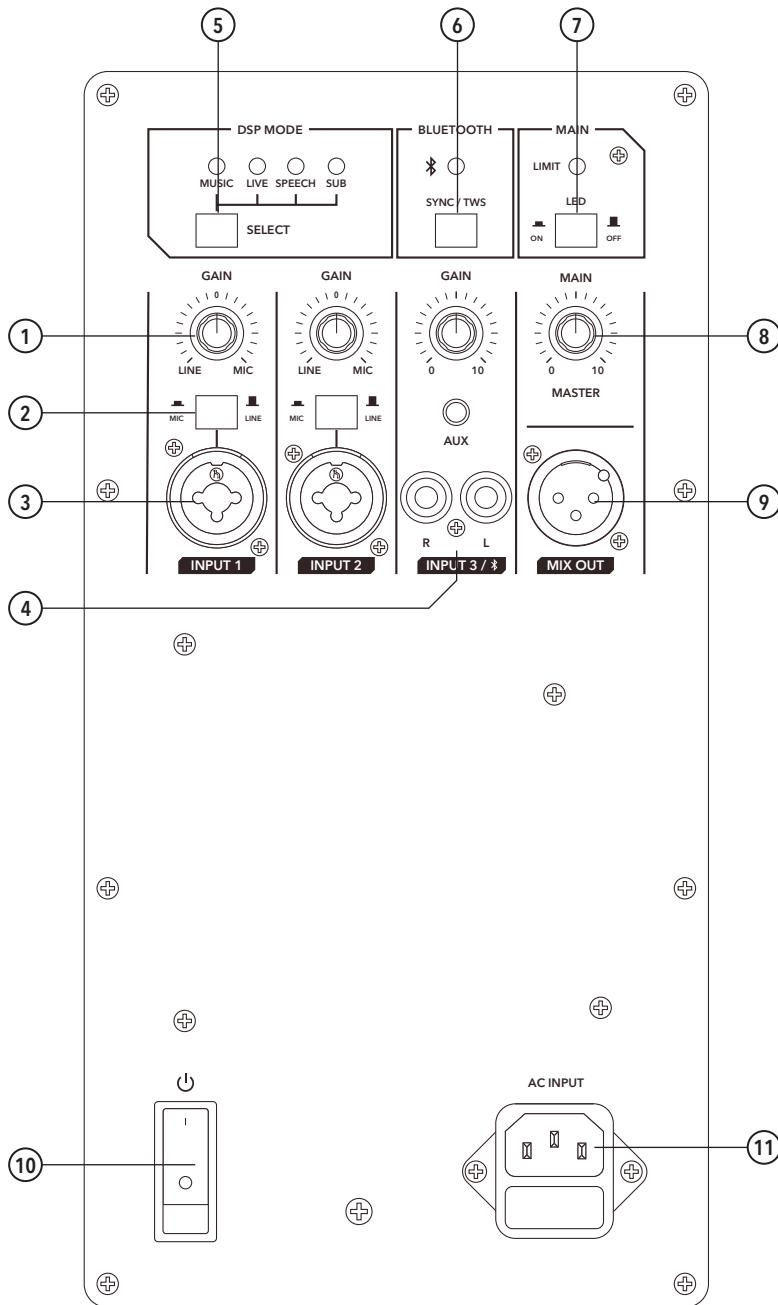

- 1 x Subzero Szs DSP Active Speaker/Active Subwoofer
- 1 x UK IEC Mains Lead
- 1 x EU IEC Mains Lead
- 1 x Manual

### PRODUCT FEATURES

- 4 x DSP settings (Mid/ High cabinet only)
- 3 x Input Channels (Mid/High cabinet only)
- Bluetooth/TWS connectivity (Mid/High cabinet only)
- Class D amplifier (Both)
- Shape contour function for improved bass performance  
(Subwoofer only)
- Phase reverse function for when using multiple speakers  
(Subwoofer only)

## FUNCTIONS

D8 / D10 / D12 / D15

# FUNCTIONS

## D8 / D10 / D12 / D15

### 1. INPUT LEVEL

This controls the input gain or volume of the signal coming into the speaker and allows you to adjust the volume of your microphone, instrument, or audio source.

### 2. MIC/LINE IN SELECTOR

This switch allows you to choose the signal level at the input. When pressed, it sets to microphone level. This is important for matching the input level to the source. When released, it sets the input to line level.

### 3. COMBI INPUT

These are input jacks that can accept both XLR and 6.35mm (1/4") jack connectors. They can be used for line or microphone level signals, making the speaker versatile for various audio sources.

### 4. SIGNAL INPUT

This input is designed for RCA phono and AUX 3.5mm cables connectivity. It provides flexibility for connection of different types of audio sources.

### 5. MODE

This feature toggles the built-in digital signal processor between different settings to adjust the sound characteristic. The indicator LEDs show which setting is selected, with options such as [MUSIC], [LIVE], [SPEECH] and [SUB] (when used in conjunction with a subwoofer). See page 8 for more info.

### 6. BLUETOOTH/TWS PAIR BUTTON

This button is used to set up pairing with Bluetooth-capable devices like mobile, tablets, and laptops. It allows you to stream audio wirelessly to the speaker. True Wireless Stereo™ (TWS) means that you can connect two speakers without any wires between them to create a stereo sound system. ( see further information on page 08)

### 7. LED SWITCH

This switch controls the LED indicator light on the speaker. When pressed, it turns the LED lights on, and when released, it turns them off. This feature is often used to conserve power or reduce visual distractions during performances.

### 8. MASTER VOLUME CONTROL

The master volume controls the overall level or power of the speaker.

### 9. MIX OUT

This is a male XLR-type connector that produces a processed mix of both Mic/Line Inputs. It can be used to daisy-chain several active speakers together, allowing you to connect multiple speakers in a chain for larger sound setups.

### 10. POWER SWITCH

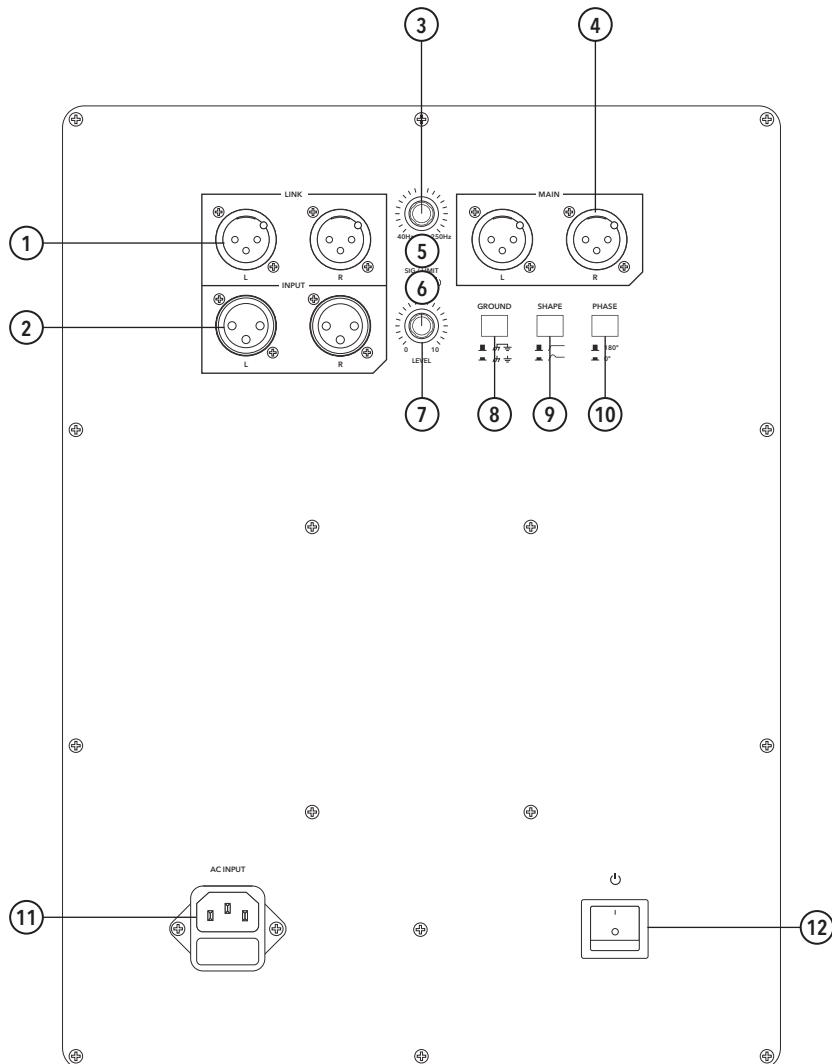

This is the main power switch for the speaker. Switching it up turns the speaker on, and switching it down turns it off. Please make sure the level control is down before turning the speaker on, to prevent sudden loud noises when the speaker is powered up.

### 11. IEC SOCKET WITH FUSE HOLDER

This is the power input for the speaker and uses a standard IEC power cable for connection.

## FUNCTIONS

D12S / D15S / D18S

# FUNCTIONS

## D12S / D15S / D18S

### 1. Link Outputs

These are balanced XLR sockets connected in parallel to the inputs. They allow you to link or daisy-chain another device, such as an additional active speaker system, for extended sound coverage.

### 2. INPUT

Connect audio units with line-level output, like mixers or preamplifiers. These connections provide the input for the subwoofer.

### 3. Crossover Frequency Control

This function lets you adjust the upper crossover frequency of the low-pass filter. You can fine-tune the frequency range from 40 Hz to 250 Hz to match the subwoofer's performance with other speakers.

### 4. HIGH PASS OUT

This provides a high-pass filtered line output in the frequency range of 80 Hz to 18 kHz. It's used for connecting active top speakers, ensuring that the subwoofer handles the low frequencies, and the top speakers handle the mid and high frequencies.

### 5. SIGNAL/LIMIT

This indicator serves as a signal input indicator, lighting up blue when a signal is present and then turning red when the input signal level is too high. The limiter function will then reduce the signal level to protect the speakers. If the LED frequently lights up red, it's a clear indication to reduce the volume of the input signal.

### 6. Power Indicator

This LED indicator shows whether the subwoofer is powered on (ON) or not.

### 7. SUB LEVEL

Use this control to adjust the level or volume of the subwoofer to match the desired sound output.

### 8. GROUND LIFT SELECTOR SWITCH (GND)

When engaged, this switch separates the signal ground from the housing ground. It can help eliminate unwanted mains related noise.

### 9. SHAPE

This switch allows you to enable or disable a bass boost, altering the bass response to suit your preferences.

### 10. PHASE

This switch provides the option to change the phase of the subwoofer from 0° to 180°. It's useful when multiple speakers are operated in parallel, ensuring that they are in phase with each other.

### 11. POWER SWITCH

This is the main power switch for the subwoofer. Switching it up turns the subwoofer on, and switching it down turns it off. Please ensure the level control is down before turning it on to avoid sudden loud noises during startup.

### 12. IEC SOCKET WITH FUSE HOLDER

This is where you plug the IEC power cable into the subwoofer. In case of a fuse burnout, it's crucial to ensure the unit is turned off and disconnected from the AC outlet before replacing the fuse to prevent the risk of fire and damage to the unit. This socket includes a fuse holder for safety.

---

## **BLUETOOTH/TWS OPERATION**

### **BLUETOOTH**

Press the button and the led flashes blue to indicate the unit is in Bluetooth pairing mode. Connect your Bluetooth enabled device as per its operating instructions. Once connected the LED will stay illuminated blue.

### **TWS (TRUE WIRELESS STEREO)**

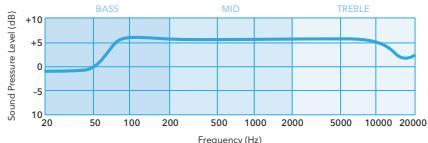

Hold the button for 2 seconds on the main unit and the led flashes blue to indicate it is looking for a second unit to pair with. On the second unit also hold the Bluetooth/TWS button until it flashes blue. After a few seconds the units will pair automatically and both pair led will stay illuminated.

Note: If you wish to use the TWS function and Bluetooth at the same time connect the two units via TWS first and then connect your Bluetooth device to the main unit as normal.

# DSP MODES

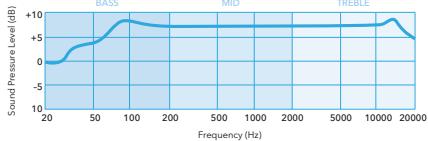

## SPEECH

Tailored for speech clarity, this mode attenuates low-frequency vocal resonance, boosts high frequencies critical for intelligibility.

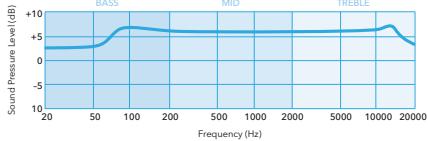

## MUSIC

This mode caters to DJ and music playback applications, offering a full-range audio experience with an emphasis on pronounced bass and brilliant high frequencies.

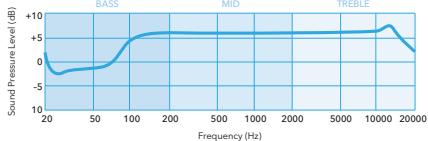

## LIVE

Cut through audiences for a pronounced sound, with a slight low-end boost to add 3D depth.

## SUB

In this mode, low-end frequencies are subtly rolled off, providing approximately 3dB of additional output. Ideal for situations where the speaker is outputting the signal to a subwoofer.

---

## SPECIFICATIONS

**D8**

Model.....	SZS-D8-MK2
Type.....	Active PA Speaker
Frequency response .....	80Hz-19kHz
Power output (RMS/peak) .....	200W/400W
Amplifier Type .....	Class D
Coverage Angle.....	90°x60°
Max.SPL(Peak) .....	120dB
LF transducer.....	8" Woofer 1.5"Voice coil
HF transducer .....	1"Exit-1"Compression Driver
Crossover frequency.....	2.8KHz
Pole Socket.....	35mm with 1-way feature (0°)
Connectors Input.....	Input:2XCombo (XLR/Jack 6.35 mm)/1XRCA stereo/1 X 3.5mm stereo mini jack/Bluetooth
Connectors Output .....	Output:XLR
Dimensions (WxHxD): .....	270×425×252 mm
Weight .....	6.5kg
Input Power .....	220-240VAC, 50/60Hz
Power Consumption .....	243W (±10)
Fuse.....	T1.6a 250V

**D10**

Model.....	SZS-D10-MK2
Type.....	Active PA Speaker
Frequency response .....	65Hz-19kHz
