

T/9x Red

A Subwoofer That Looks as Fast as It Sounds

Introducing T/9x Red – a fusion of iconic Rossa Corsa elegance and exceptional audio engineering. With its striking red hue, polished chrome accents, and sleek carbon fibre center-cap, the T/9x Red is not simply a visual masterpiece, it also builds on performance compared to the standard T/9x.

Delving deeper its design reveals the meticulous attention to detail that sets the T/9x Red in a league of its own. Each badge and foot are perfected over a three-day chroming process, underscoring REL's unwavering commitment to craftsmanship.

Beneath its exterior, the enhanced carbon fibre center-cap optimizes rigidity, reducing the moving mass of its driver. This results in an audible 1.2 dB increase in output and faster, more reactive response. At its core, a robust 300-watt Class A/B monoblock amplifier ensures that every beat, note, and nuance is delivered with precision and power. The combination of a proven reliable amplifier and updated driver ensures that the T/9x Red delivers a listening experience that's as dynamic and refined as its appearance suggests.

Secure your T/9x Red today — this Special edition masterpiece is in high demand and will not last long.
