

SAFETY DATA SHEET

Champion Slide Ezy

This Safety Data Sheet contains information concerning the potential risks to those involved in handling, transporting and working with the material, as well as describing potential risks to the consumer and the environment. This information must be made available to those who may come into contact with the material or are responsible for the use of the material. This Safety Data Sheet is prepared in accordance with formatting described in the REACH Regulation (EC) No 1907/2006 and the UK REACH Regulations SI 2019/758.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product Name: Champion Slide Ezy

1.2 Relevant identified uses of the substance or mixture and uses advised against

Oil

1.3 Details of the supplier of the safety data sheet

Barnes and Mullins Ltd,
Unit 14,
Mile Oak Ind Estate,
Oswestry,
Shropshire,
SY10 8GA,
United Kingdom
Tel: +44 01691 652449
Email: mark@bandm.co.uk

EU Authorised Representative
Authorised Rep Compliance
71 Baggot Steet Lower,
Dublin,
D02 P593,
Ireland

1.4 Emergency telephone number

UK Emergency Response	NHS (+ 44) 111
ROI Emergency Response	01 809 2166 (general public)
	01 809 2566 (healthcare professionals)

SECTION 2: Hazards Identification

2.1 Classification of the substance or mixture

Not classified as hazardous according to the CLP Regulation (EC) No 1272/2008 and the retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain

2.2 Label elements

No label required.

2.3 Other hazards

Not expected to be hazardous.

None of the components are known to be PBT or vPvB, or to have endocrine disrupting properties.

SECTION 3: Composition

3.1 Substances

Not applicable, product is a mixture.

3.2 Mixtures

This product contains the following hazardous components above thresholds of concern:

Name	CAS No	Conc. % w/w	Classification
Non-hazardous Substances	-	100%	Not classified

See section 16 for full description of H statements.

SECTION 4: First Aid Measures

4.1 Description of first aid measures

EYE CONTACT: Rinse thoroughly with water for several minutes, whilst gently holding the eyelids open. Obtain medical attention if signs of discomfort.

INHALATION: Remove from exposure and keep warm and at rest. If breathing becomes difficult call a doctor. If breathing stops, begin artificial respiration and seek immediate medical attention.

SKIN CONTACT: Remove contaminated clothing. Wash off with soap and water. Seek medical attention if irritation or rash occurs. Wash contaminated clothing before re-use.

INGESTION: If swallowed, rinse mouth with water. Do NOT induce vomiting. Seek medical advice if ill effects occur.

4.2 Most important symptoms and effects, both acute and delayed

EYES: Redness, irritation.

INHALATION: No adverse effects anticipated.

INGESTION: Nausea, abdominal discomfort.

SKIN: May cause mechanical irritation.

4.3 Indication of any immediate medical attention and special treatments needed

Symptomatic treatment as required.

SECTION 5: Firefighting Measures

5.1 Extinguishing media

Not flammable. Use extinguishing media appropriate to surrounding conditions.

5.2 Special hazards arising from the substance or mixture

None identified.

5.3 Advice for fire fighters

Prevent run-off from fire from entering water courses and sewers. Fire-fighters should use standard protective equipment and in enclosed spaces, positive pressure self-contained breathing apparatus (SCBA).

SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Remove all ignition sources. Keep unnecessary personnel away from spill area. Ventilate the area if possible. For spillages in confined spaces or large incidents protective clothing may be required. See section 8 for more information.

6.2 Environmental precautions

Prevent entry into sewers and watercourses. If product enters sewers or watercourses, inform the appropriate environmental authorities.

6.3 Methods and materials for containment and clearing up

Small spills: Sweep up and place in a suitable container for disposal. Wash the spill area with detergent and water.

Large spills: Sweep up and collect in a suitable container for disposal. Avoid generating dust. Damp down if necessary. Wash the spill site thoroughly with detergent and water.

6.4 References to other sections

See sections 8 and 13 for further advice on protective clothing and disposal.

SECTION 7: Handling and Storage

7.1 Precautions for safe handling

Avoid contact with skin and eyes.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, well ventilated area.

Containers that have been opened should be carefully resealed and stored upright to prevent leakage.

7.3 Specific end uses(s)

No industrial or sector specific guidance available.

SECTION 8. Exposure Controls/Personal Protection

8.1 Control parameters

No exposure limits identified.

8.2 Exposure controls

Engineering controls

Not normally required.

Respiratory protection

Use in well ventilated areas.

Hand Protection

Not normally required. If prolonged contact is likely, gloves may be worn. Glove manufacturer recommendations should always be consulted. Change gloves in accordance with manufacturer recommendations. If gloves are damaged during use, remove immediately and wash hands before replacing with new gloves.

Eye protection

Not normally required. If significant level of dust is likely, wear suitable eye protection, meeting the requirements of BS EN166 3, when handling this product.

Skin protection

Not normally required. If significant and prolonged exposure is likely, aprons or coveralls are recommended. These should be changed after use or if contaminated. Wash before re-use.

Environmental Exposure Controls

Take suitable measures to prevent entry into drains, sewers and watercourses.

SECTION 9: Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

a)	Physical state	Liquid
b)	Colour	Colourless
c)	Odour	Not determined
d)	Melting point/freezing point	Not determined
e)	Boiling point or initial boiling point and boiling range	Not determined
f)	Flammability	Not combustible
g)	Lower and upper explosion limit	Not applicable

h)	Flash point	Not flammable
i)	Auto-ignition temperature	Not determined
j)	Decomposition temperature	Not determined
k)	pH	Not determined
l)	Viscosity	Not determined
m)	Solubility	Not determined
n)	Partition coefficient n-octanol/water (log value)	Not applicable
o)	Vapour pressure	Not determined
p)	Density and/or relative density	Not determined
q)	Relative vapour density	Not determined
r)	Particle characteristics	Not determined

9.2 Other information

None

SECTION 10: Stability and Reactivity

10.1 Reactivity

This product is not considered to be a reactive substance.

10.2 Chemical stability

This material is stable under expected conditions of use.

10.3 Possibility of hazardous reactions

Hazardous polymerisation is not expected to occur.

10.4 Conditions to avoid

Avoid heat, sparks, open flames and other ignition sources.

10.5 Incompatible materials

Strong oxidisers.

10.6 Hazardous decomposition products

Material does not decompose under normal conditions of use. See section 5 for fire decomposition products.

SECTION 11: Toxicological Information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

(a) acute toxicity	Based on available data, the classification criteria are not met.
(b) skin corrosion/irritation	Based on available data, the classification criteria are not met. Sand may cause mechanical abrasion of the skin.
(c) serious eye damage/irritation	Based on available data, the sand mixture may cause eye irritation. May also cause mechanical abrasion of the eyes.
(d) respiratory/skin sensitisation	Based on available data, the classification criteria are not met.
(e) germ cell mutagenicity	Based on available data, the classification criteria are not met.
(f) carcinogenicity	Based on available data, the classification criteria are not met.
(g) reproductive toxicity	Based on available data, the classification criteria are not met.
(h) STOT-single exposure	Based on available data, the classification criteria are not met.
(i) STOT-repeated exposure	Based on available data, the classification criteria are not met.
(j) aspiration hazard	Based on available data, the classification criteria are not met.

11.2 Information on other hazards

No additional information.

SECTION 12: Ecological Information

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

12.1 Toxicity

Not expected to be hazardous to aquatic organisms.

12.2 Persistence and degradability

The polymer components of this product are not expected to be readily biodegradable.

12.3 Bioaccumulative potential

This product is expected to have a low bioaccumulation potential.

12.4 Mobility in soil

Not known. Product is mostly water.

12.5 Results of PBT and vPvB assessment

None of the components are known to be PBT or vPvB.

12.6 Endocrine disrupting properties

None of the components are known to have endocrine disrupting properties.

12.7 Other adverse effects

None known.

SECTION 13: Disposal Considerations**13.1 Waste treatment methods**

Disposal should be in accordance with local and national regulations. Small quantities may be washed to drain with large quantities of water.

SECTION 14: Transport Information

	ADR	IMDG	ICAO
14.1 UN Number	NONE	NONE	NONE
14.2 UN Proper shipping name	NONE	NONE	NONE
14.3 Transport hazard class(es)	NONE	NONE	NONE
14.4 Packing group	NONE	NONE	NONE
14.5 Environmental hazards	NONE	NONE	NONE
14.6 Special precautions for user	NONE	NONE	NONE
14.7 Maritime transport in bulk according to IMO instruments	Not Applicable	Not Applicable	Not Applicable

SECTION 15: Regulatory Information**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

All components are listed as existing substances in Europe

15.2 Chemical Safety Assessment

A REACH Chemical Safety Assessment has not been carried out for this product.

SECTION 16: Other Information

Revision information:

This is a new SDS

List of Abbreviations used in this SDS:

CAS Chemical Abstracts Service

CLP Classification, Labelling and Packaging Regulation (EC) No 1272/2008

EC European Community/Commission

PBT Persistent, Bioaccumulative and Toxic

REACH Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006

vPvB very Persistent, very Bioaccumulative

H Statements used in Section 3

None.

Method used for classification of mixtures:

Ingredient based approaches; expert judgement

Training requirements for workers

No special requirements.
