

DATA SHEET - ABM-810H-UK

Dimensions

H: 1168 W: 609 D: 438mm

Weight

67 Kg

Material

18mm Latvian Birch Ply

Finish

Buffalo Tolex

Protective Grill

Folded Mild Steel

Power Handling

1200 watts cont. 2400 peak

Speaker Config

8 x 10" + HF Unit

Freq Response

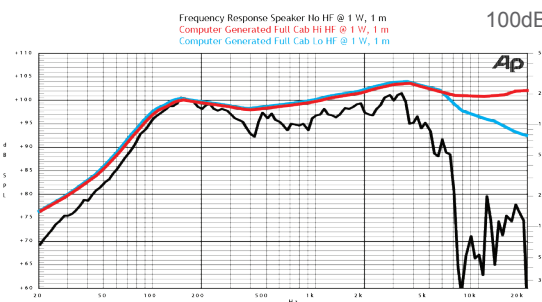

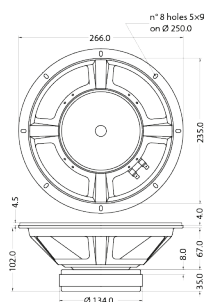

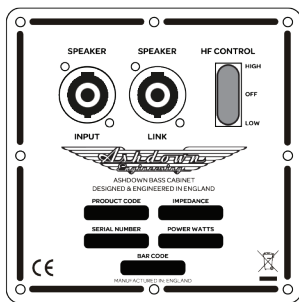

35Hz - 20Khz

Impedance

4 Ohms Nominal

SPL

100dB - 1w @ 1m @ 200Hz

FEATURES & BENEFITS

Hand made in the England

Complementing the new ABM-EVO IV heads, Ashdown has also announced two new ranges of cabinets. Foundation range cabinets are hand-crafted in the UK featuring 18mm ply and custom high-powered BlueLine Plus drivers.

Built to last a lifetime

Ashdown Foundation cabinets utilize the knowledge of Italian speaker manufacturers SICA to develop a range of speakers that we are proud to put our name on and offer a lifetime warranty.

Sourced from responsibly managed forests

The cabinets are built using FSC approved birch ply-wood, ensuring our cabinets are built from responsibly managed forests.

Each cabinet has been tuned to match the exacting frequency response of the chosen drivers to ensure the highest possible SPL and ensure longevity of the drivers.

Portability

New tilt back heavy duty casters are now fitted to the ABM-810H, ABM-410H and ABM-115H cabs for ease of transportation, along with protective kick plate and ply runners (ABM-810H only).

Fixings

Every NEW Foundation Range cabinet has T-Nutted Alan Key fitted grills and speakers for ease of locating when replacing speakers.

HF unit

Every cab is fitted with a bespoke Ashdown HF unit to re-produce the natural high frequencies of the bass guitar.
