---

### INSTRUCTIONS

#### How to Properly Insert your Earplugs

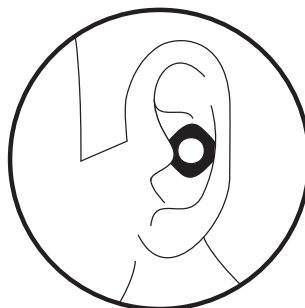

1. Gently insert the earplug into your ear

2. Twist the earplug into your ear to ensure a snug fit

3. Check that the external part of the earplug lies flat against your ear and is barely visible from the front

---

## Cleaning and Maintenance

To clean the earbuds, soak a clean cloth in warm soapy water, wipe clean and pat dry with a clean dry cloth. Then leave to completely dry in a cool dry place. It is normal for the earbuds to have a synthetic rubber odour. To reduce this, follow the instructions above and leave to dry in the open air for 24 hours.

### Note:

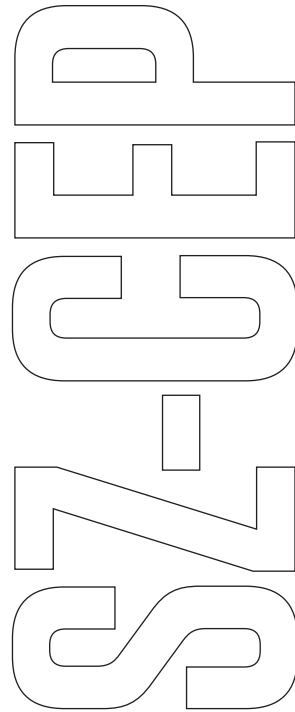

Do not wash with boiling water or leave to dry on a heated surface as this will damage the product.

Do not give to a child under the age of 3 as the product may pose as a choking hazard.

If you experience severe discomfort or an allergic reaction, please stop using the product immediately and consult a doctor.

## Replacing your Earbud Tips

1. Gently twist the existing earbud tip off of the earplug
2. Invert the new earbud tips to properly align the plug to the tip
3. Gently push and twist the new earbud in place
