

MultiMix 10 Wireless

10-Channel Rackmount Mixer with Bluetooth Wireless

Convenient connections plus a stereo Bluetooth channel add true versatility.

The Alesis MultiMix 10 Wireless is redefining the rackmount mixer category. Compact and complete, the MultiMix 10 Wireless delivers ten-channel mixing in a neat 3U package that is perfect for smaller clubs and venues, houses of worship, as well as mobile/traveling systems. The MultiMix 10 Wireless benefits from an array of easily accessible front panel jacks that enhance the versatility and usefulness of this generously equipped mixer. Topping off the feature list is a channel dedicated to receiving the stereo playback from any Bluetooth device. The MultiMix 10 Wireless is a new breed of rackmount mixer.

ALL ARE WELCOME

The MultiMix 10 Wireless provides a wealth of inputs to accommodate nearly any audio input. Channels 1-4 are ideal for vocals or acoustically miced instruments, direct boxes, and more. Each provides an XLR mic input with available phantom power; a balanced 1/4" TRS line input, plus a TRS 1/4" insert jack for incorporating additional effects or working with a second mixer. Channels 5-8 have been set as stereo pairs, offering 1/4" left and right inputs. These channels are ideal for stereo sources such as a keyboard, electronic drum set, drum machine, external mixer, etc. Channels 7-8 also provide left and right RCA inputs.
