

J. ROCKETT AUDIO DESIGNS

Controls

- **L/R Footswitch:** This switch allows you to toggle between two completely independent tremos and settings.
- **Boost Control:** The boost control is a global level control affecting both tremos simultaneously. The purpose is to compensate for volume loss typical of most tremos. If you reduce depth on either side of the trem it can act as a clean boost as well.

Settings

Speed and depth controls are independent for each channel. This allows you to effectively have two separate tremos in one. The typical use is to set one fast and one slow but this pedal allows you to alter the depth for each as well. There are rate lights that constantly flash for each side of the trem that let the user know what the current speed is visually. A second LED will light up indicating which side of the trem is in use. The bypass light will illuminate when the pedal is engaged.

Internally, you will notice a small trimpot. Under no circumstances should the trimpot be touched or adjusted. If you do so, it will knock the pedal out of bias and the pedal will no longer work!

Power Supply

All J. Rockett Audio Designs pedals operate off of the standard BOSS type 9 volt adapter or a single 9 volt battery. The power input is a 5.5 mm x 2.1 mm jack with the positive voltage on the outer sleeve. Using an external power supply will automatically disconnect the battery. Disconnect the input jack to preserve battery life when not in use or when not used with an appropriate, external power supply.

2.1mm x 5.5 mm tip/negative

Warranty

J. Rockett Audio Designs LLC will repair or replace, at its discretion, defective workmanship or materials on all new J. Rockett Audio Designs products directly or through the selling dealer or an authorized service technician for one year from the date of purchase at no cost to the original purchaser. Repair and replacement parts installed will be warranted for the unexpired portion of the original warranty term.

Before sending a product in for repair, please contact us at chris@rockettpedals.com or jay@rockettpedals.com or call us at 760-419-1345.

This warranty does not cover shipping costs, product appearance or damages caused by accident, abuse, misuse or alteration. A dated sales slip or order number (issued by a tech, dealer or J. Rockett Audio Designs) must accompany a product being returned for warranty service. Repairs without a return authorization number will be refused. Please allow four (4) weeks for warranty service. For more information please contact J. Rockett Audio Designs via our website at www.rockettpedals.com or call us at 760-419-1345. No other warranty is expressed or implied.
