

R35

Floorstanding Loudspeakers

The ARCAM R35 brings the engineering excellence of the Radia Loudspeaker Series into a more compact form—perfectly suited for living spaces such as lounges or sitting rooms, without compromising on sound quality. Designed for those who want the full ARCAM experience in a refined, accessible package, the R35 is the ideal partner for the ARCAM AVA35 AV amplifier or the ARCAM SA35 Hi-Fi system.

Featuring three 130mm (5.25-inch) bass drivers and a dedicated midrange driver, the R35 delivers rich, detailed sound with exceptional clarity across the frequency range. Each driver is precision-mounted with inverted surrounds and a hidden fixing system, creating a clean, elegant front panel that complements its premium design.

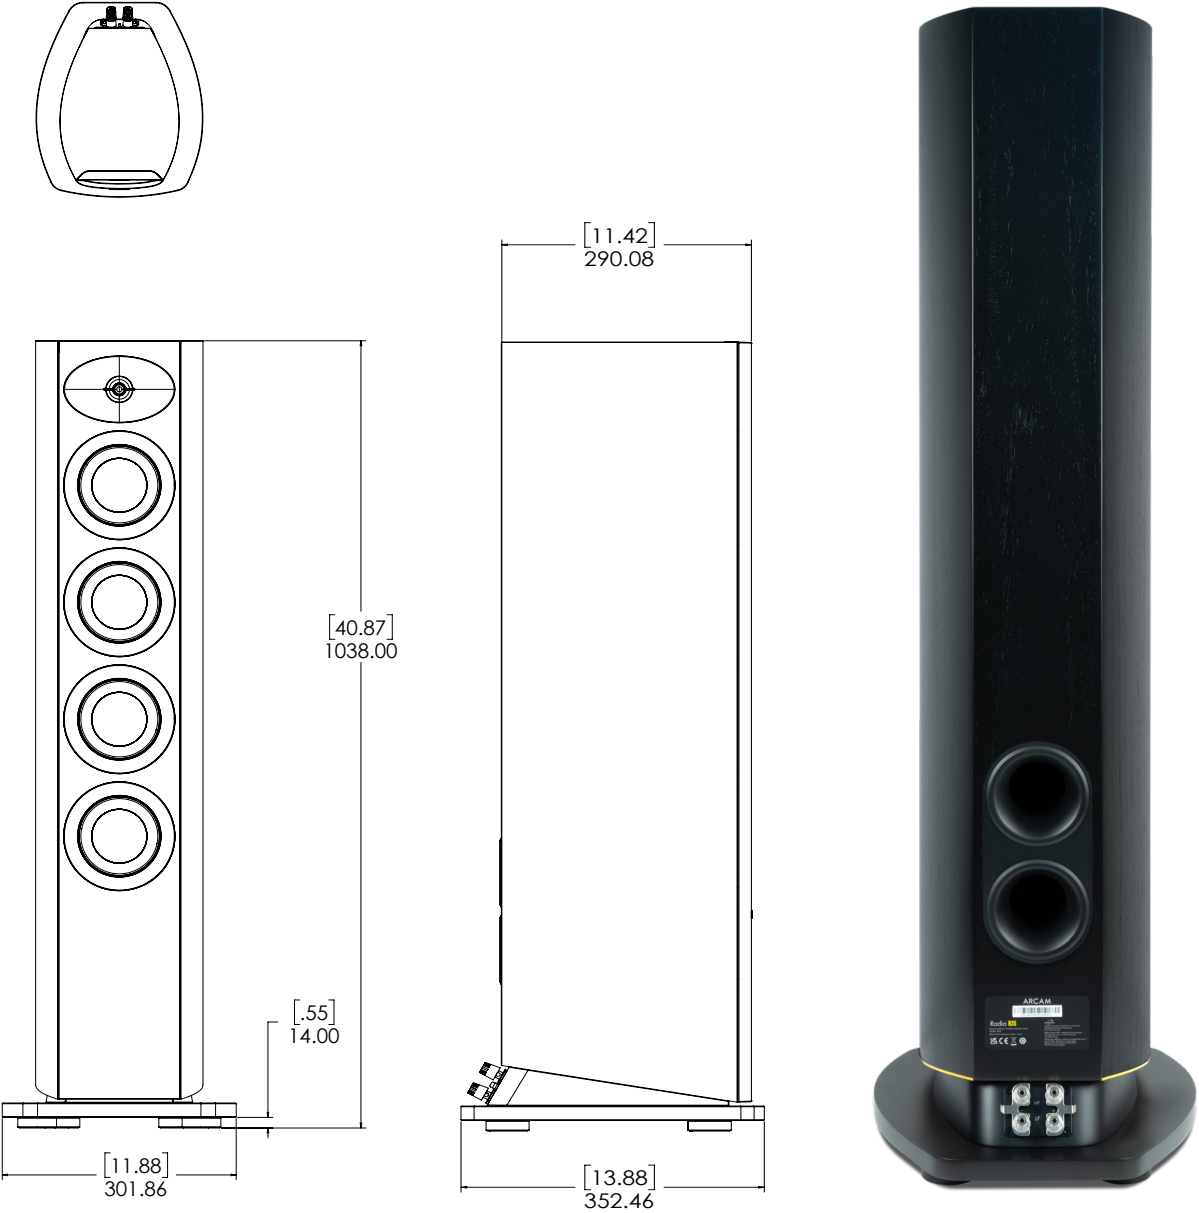

At the top, a 25mm Deep Ceramic Composite (DCC) dome tweeter, mounted in our advanced Acoustic Lens waveguide, ensures smooth, natural highs and a wide, immersive soundstage—even when listening off-axis. The result is a sound that fills your room with lifelike realism.

The cabinet, finished in luxurious Black Walnut veneer, combines beauty with acoustic integrity, featuring rigid cross-bracing for stability and solid aluminium feet with optional spikes for perfect isolation. Inside, a precision-engineered 3-way crossover network uses premium components to preserve every nuance of your music and movies, ensuring seamless integration between drivers for a sound that feels effortless yet deeply engaging.

The ARCAM R35 delivers the essence of Radia performance in a size that fits your home—bringing you closer to the music and movies you love.

Features

- Perfect match for the ARCAM SA35
- Precision 3-Way Crossover
- 1-inch (25mm) DCC Dome Tweeter with Acoustic Lens and Waveguide
- Midrange Driver: 1 x 5.25 in (135 mm) Deep Ceramic Composite (DCC) Cone Driver
- Low Frequency Drivers: 3 x 5.25 in (135 mm) Micro Ceramic Composite (MCC) Cone Woofers
- Inverted surrounds and trim ring cover
- Newly patented cast frames
- Magnetically attached grille
- Enclosure Tuning: Bass-Reflex via Dual Rear-Mounted Ports
- Fine-tuned via anechoic EQ when using ARCAM SA35, SA45, and AV products

Dimension Specifications	
Dimensions	40.9 in x 11.9 in x 13.9 in (1038 mm x 301.86 mm x 352.46 mm)
Product Weight	64 lbs. (29.1 kg)
Shipping Weight	85.1 lbs. (38.6 kg)
Shipping Units of Measure	Each
Electrical and Acoustic Specs	
Nominal Impedance	6 Ohms
Sensitivity @ 1m, 2.83V	87 dB
Recommended Amplifier Power	30-225W
Frequency Response +/-6 dB	36 Hz - 40 kHz
Crossover Frequency	350 Hz / 2.1 kHz
