

# LUNASTONE<sup>TM</sup>

TrueOverDrive<sup>®</sup>

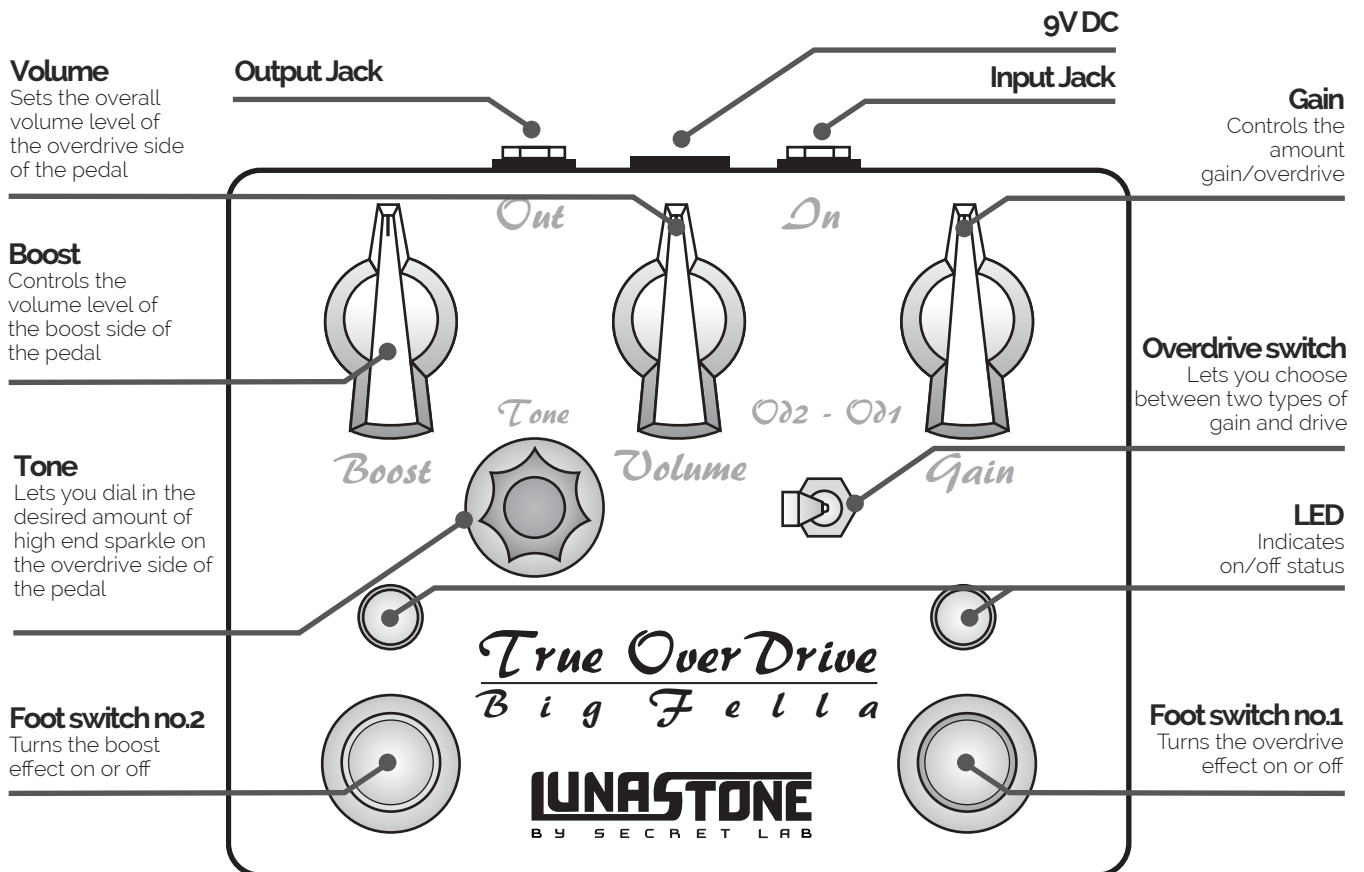

Would like to congratulate you on your purchase of the

## TrueOver Drive - Big Fella

The Big Fella has tone that will fill the room! It's massive smooth overdrive has such a fat yet firm low end, that it needs two seats at the cinema. the Big Fella is all about sustain and power, yet it still retains transparency, and avoids the characterless fizziness most other high-gain pedals produce when cranked.

Unlike most other overdrives and distortions, "boutique" or budget brands, the Big Fella achieves its fat responsive tube-like overdrive without the common use of diodes, but purely from cascading gain stages much like in a real tube amp, which is why it bears the name TrueOverDrive<sup>TM</sup>

Plug in, play and enjoy!

### POWER:

You can use any standard 9V power supply with negative center polarity  $\oplus \ominus \ominus$  or a 9V battery. The battery can be accessed by unscrewing the four screws on the back of the pedal.
