

## **OUTDOOR POWER**

### **E302AM - 16A SPLITTER**

**The E302AM 16A splitter allows three products fitted with 16A plugs to be run from one 16A socket.**

The E302AM is suitable for use outdoors, but not suitable for permanent or temporary immersion in water, or for use in damp locations such as in direct contact with wet grass.

All electrical equipment used outdoors must only be connected to the electricity supply through a Residual Current Device (RCD) rated at 30mA or less.

The maximum total load connected to the E302AM may not exceed 16 Amps, or 3680 Watts.

The E302AM may only be used on 230V supplies. 110 Volt equipment must be connected with plugs and sockets that are colour-coded yellow.

The E302AM should be checked annually for electrical safety by a qualified electrician.
