

ALL YOU HAVE TO CARRY IS THE TUNE

Introducing the Vandoren saxophone harness, the first harness that makes your instrument feel completely weightless. Its ergonomic design moves as you move, in perfect harmony, to make playing easier than ever before.

No more straps that hurt your neck or restrict your breathing.

So playing is less labor, and more love.

LIGHTEN UP.

The Vandoren universal saxophone harness makes even heavy instruments feel weightless, giving you the freedom to shine. That's because, with help from musicians and physiotherapists, it was designed with key features that help you feel better, and play better.

FEATURES

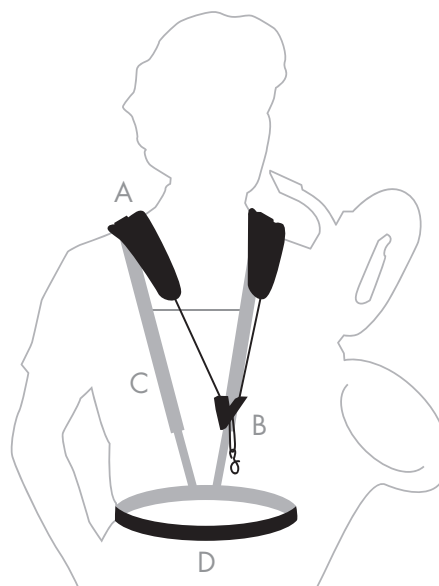

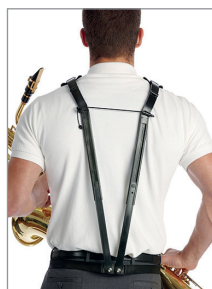

A) **SHOULDER STRAPS** Soft and handmade, these take pressure off your neck and distribute it.

B) **INSTRUMENT CORD** Secures your instrument discreetly, without uncomfortable straps that restrict your breathing.

C) **STABILIZING RODS** Working independently as you move, these give you leverage to offset your instrument's weight.

D) **SUPPORT BELT** Centers the load at your waist, balancing you perfectly whether standing or sitting.

UNIVERSAL FIT Suitable for any saxophone, and can be sized to fit children and adults.

Includes soft storage pouch.
