

Clarinet mouthpieces

Bb

The new MASTERS mouthpieces feature a specific bore, a new chamber as well as a new exterior design. Three models have been developed with facings specific to this series: CL4, CL5 and CL6. They are very easy blowing and have exceptional sound and tuning characteristics.

Now available in $\text{\textcircled{18}}$ Series (American pitch).

The MASTERS mouthpieces require specific ligatures. They can only be used with $\text{\textcircled{M}}$ series metal ligature or with flexible ligatures, like Leather or Klassik Vandoren ligatures.

Bb
mouthpieces

	MASTERS	MASTERS $\text{\textcircled{18}}$	COMMENTS
CL4	CM60048	CM64048	The CL4 is characterized by a very radiant, clear sound and exceptional intonation. It allows precise, easy blowing and flowless articulation.
CL5	CM60058	CM64058	The CL5 is characterized by a round, full sound, exceptional intonation, and perfect homogeneity and projection.
CL6	CM60068	CM64068	It has the same sound aesthetics as the CL5, with increased ease of blowing and projection.
