

ULTRATONE

KT108

Ultra-Compact 15-Watt Keyboard Amplifier with VTC-Technology and Original 8" BUGERA Speaker

- Extremely versatile 2-channel keyboard amplifier
- Powerful 20-Watt, 8" dual-cone BUGERA speaker for wide frequency response
- 2 instrument inputs with separate volume control for each channel
- VTC Virtual Tube Circuitry for tube-like sound
- Ultra-musical 3-band EQ for ultimate sound shaping
- CD input allows you to play along to your favorite music
- Separate headphone output—perfect for quiet practicing
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The awesome and super-compact KT108 is the ideal choice for keyboardists looking for great, classic tube-like sounds in a 2-channel, 15-Watt combo – with an equally-small price. Our revolutionary VTC (Virtual Tube Circuitry) emulates the preamp and power amp stages of those larger-than-life classic tube rigs, giving the KT108 its truly tube-like sound – plus the onboard 3-band EQ (Low, Mid, High) makes for super-easy sound shaping. The powerful 20-Watt **BUGERA** 8" speaker provides amazingly-rich and deep bass, without the slightest hint of distortion. And for those times you want to keep that all magical tone to yourself, we've provided a ¼" input for connecting your CD or mp3 player – and a powerful headphone output.

Secret Weapon

Tone. That's what it all comes down to – and the KT108 really delivers! Our incredible VTC technology allows you to tap into a more aggressive sound – with the perfect amount of grind. For even more tonal variation, we've provided our proprietary 3-band EQ (Low, Mid, High) for awesome sound shaping that will take your sound from mild to wild!
