

VIBRAMATE®

Installation Instructions: V5-JAM

WARNING – To prevent damage to your instrument, carefully follow these installation instructions.

Thank you for selecting the Vibramate V5-JAM Mounting Kit for Jazzmaster and Jaguar Style Guitars with a stock tremolo system. This kit has been designed for the simple installation of a Bigsby Original B-5 Vibrato on to your guitar without the need to drill holes or make any other permanent modifications to your instrument.

Step 1) Visually inspect the Vibramate mounting plate for alignment. The V5-JAM should align with the mounting screw holes of your existing bridge plate.

Step 2) Remove the strings from your guitar. (You may want to cover the instrument with a soft cloth or towel to protect the finish and for added safety during installation.)

Step 3) Remove the wood screws that attach the existing tremolo mounting plate to the guitar body. Remove the tremolo system from the guitar. Save the screws for mounting the Vibramate plate later in Step 4.

Step 4) Position the Vibramate V5-JAM Bridge mounting plate on your guitar and secure it with the same 4 wood screws from Step 3.

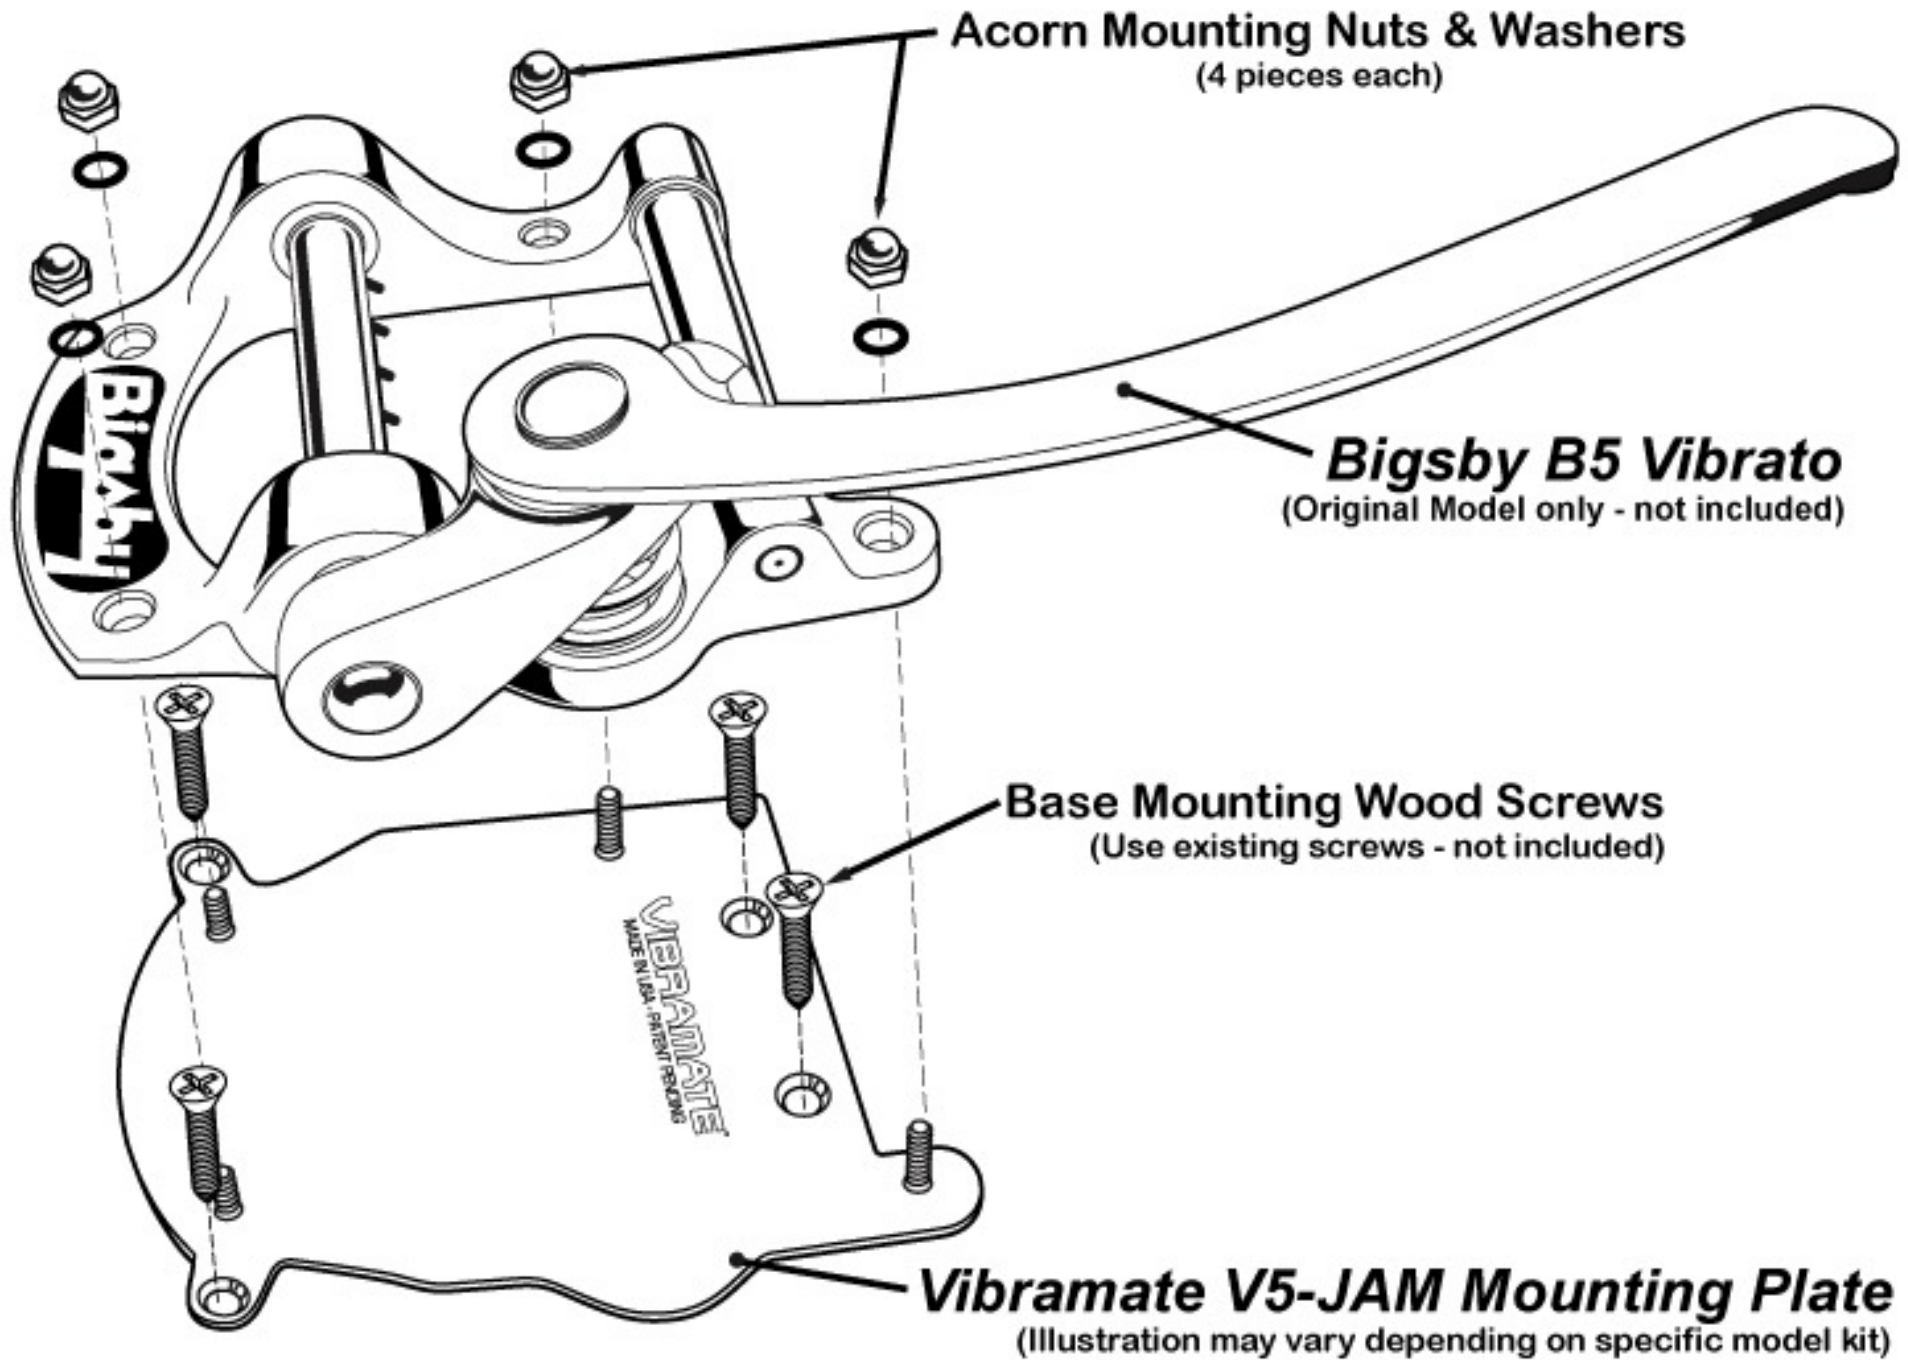

Step 5) Prepare the Bigsby B5 Vibrato for mounting by removing the felt pads on the bottom of the unit.

Step 6) Position the Bigsby B5 Vibrato on the Vibramate mounting plate studs and secure with the supplied washers and 5/16" Acorn nuts. Do not over tighten.

Step 7) Re-string the guitar according to the Vibrato instructions and enjoy!

*Note that the strings go "UNDER" the front roller of the Bigsby vibrato.

V5-JAM MOUNTING KIT

*Important Notes and Cautions:

- 1) Read all instructions, warnings and disclaimers prior to installation of this product, UE Corporation will not be held responsible for any damage to your instrument.
- 2) Use a qualified repairman or service if you are uncomfortable working on your guitar.
- 3) If you are missing hardware or having trouble with the installation of your mounting kit please contact our technical service department by e-mail at: info@vibramate.com
