

# GUITAR 2 USB

Guitar to USB Interface Cable

- Guitar to USB interface cable
- Mono 1/4" jack connector
- Ideal for recording electric guitars and basses
- 5 meter (16.5 foot) cable length
- Simple Plug-and-Play connection to Mac\* and PC computers
- Digital audio output operates at 44.1 kHz and 48 kHz sample rates
- Compatible with most 32-bit Mac and Windows\* drivers and software
- 3-Year Warranty Program\*

Whether you play electric, acoustic-electric or bass guitar, you want to share your passion. But to be heard by the world, you need to record it, right? The GUITAR 2 USB Interface Cable connects your axe directly to music's present and future by plugging straight into your computer. Now when inspiration strikes, you can capture the moment in all its dazzling brilliance – and share it with everyone!

## Rock 'n' Roll to High-Tech Connection

The incredible GUITAR 2 USB is the very essence of simplicity. Connect the 1/4" plug to your guitar or bass, and run the USB cable to your computer. It just doesn't get any easier than this!

## In the Zone

GUITAR 2 USB's long cable (16.5' / 5 m) provides the ultimate in convenience for tracking in the studio – so you are free to join your bandmates in the tracking room, where all the fun is happening!

## Plug and Play

GUITAR 2 USB interfaces seamlessly with Windows\* PC and Mac\* operating systems and is ideal for use with low latency ASIO\* drivers (such as ASIO4ALL\*) for PC and the built-in Core Audio drivers for Mac. Step into the virtual world of recording software, amplifier and effect plug-ins and create stunning soundscapes – that would otherwise require the keys to one of the world's top recording studios. GUITAR 2 USB works with virtually all popular 32-bit compatible recording software including Avid Pro Tools\*, Ableton Live\*, Steinberg Cubase\*, etc., so you can record tracks directly into your favorite DAW – and mix and master to your heart's content.

## Total Recording Flexibility

GUITAR 2 USB supports both 44.1 kHz and 48 kHz sample rates for maximum flexibility, so whether you are recording the next global smash hit or a heart-pounding video soundtrack, it's all you need.
