

Standard Series (Short Shank)

Model No.	Rim Inner Diameter (mm)	Throat (mm)	Characteristics
CR-7D4dS	16.24	4.10	Small inner rim diameter, flat and wide for extended endurance. Bright, round tone. Outstanding high tones.
CR-8D2S	16.36	4.10	Small inner rim diameter with a relatively deep cup. Soft yet lyrical tone that is excellent for playing in the high range.
CR-9ES	16.44	4.50	Appealing "British-style" soft tone. Medium rim and deep cup for easy playability over a wide range.
CR-11C4S	16.46	3.65	Easy high register. Ideal for beginners. Same rim and cup configuration as the 11C4 trumpet model.
CR-11E4S	16.46	4.20	The standard British-style cornet mouthpiece. Exceptionally flexible for a wide range of styles.
CR-13E4S	16.70	4.50	Slightly larger inner rim diameter than the 11E4 for a richer, heavier tone. Deep "V" cup delivers traditional soft cornet tone.
CR-14ES	16.86	3.98	Slightly smaller inner rim diameter than the 16E. Beautiful soft tone. Centered tone and outstanding stability over the instrument's full range.
CR-16ES	17.06	3.98	Popular with top British players. Unique configuration with a fairly thin rim facilitates advanced playing techniques.

*The last "S" : Short Shank
