

D1001 / D1001S / D1002

SUPERCARDIOID DYNAMIC MICROPHONE

DESCRIPTION

The D1001/D1001S/D1002 make up a series of dynamic supercardioid studio microphones designed for professional sound reinforcement and project studio recording. These microphones incorporate high-quality neodymium magnets and dualmembrane dome diaphragms for high sensitivity and greatly extended frequency response. A shockproof capsule, protected by a hardened steel mesh headgrill and a gold-plated 3-pin XLR-type connector ensure reliability in use.

BESCHREIBUNG

Unsere Top Gesangsmikrofone. Diese rückkopplungsarmen dynamischen Supercardioid- und Kondensator-Gesangsmikrofone zeichnen sich durch ein breites Frequenzspektrum, geringe Verzerrungen bei hohen Pegeln und minimale Handgeräusche aufgrund einer „shockproof“ montierten Kapsel aus. Für alle anspruchsvollen Bühnenanwendungen geeignet.

SPECIFICATIONS

	D1001 / D1001S	D1002
Capsule type:	Dynamic microphone	Dynamic microphone
Polar pattern:	Super Cardioid	Super Cardioid
Frequency respons:	50 - 16000 Hz	50 - 16000 Hz
Sensitivity:	-54 (2.0 mv/pa)	-54 (2.0 mv/pa)
Impedance:	300 Ω	300 Ω
Connector type:	3 Pin XLR with gold plated pins	3 Pin XLR with gold plated pins
Dimensions (∅ x L):	52 x 165 mm	42 x 163 mm
Weight:	270g	

NOTE

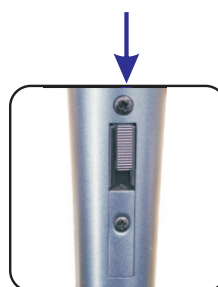

- 1) D1001S includes lockable slider switch.
- 2) All microphones in this series come with a microphone holder a 5/8" x 27T (male) to 3/8" x 16T (female) adaptor.

With Microphone holder
