

Byron

Dynamic In-Ear Headphones (Android)

Order # 718.513

FEATURES

- Closed design
- Perfect for mobile use
- Cable with integrated remote control for Android with microphone and three buttons for phoning and media control*
- Compatible with portable device with mini jack socket (3.5 mm)
- With 3 pairs of silicone in different sizes, cable clip and case

DESCRIPTION

The Byron in-ear headphones feature a balanced sound and a powerful bass response. It can be connected to all portable devices with a mini jack socket (3.5 mm) such as notebooks, tablets, computers, MP3 players or smartphones.

The closed design makes sure that music does not penetrate to the outside and that ambient noise is attenuated/does not penetrate to the inside.

With the remote control integrated in the cable you can control the media playback of the player and phone calls.

The straight cable does not get tangled even when you put the player into your jacket or trouser pocket.

A supplied selection of silicone eartips in three different sizes ensure a perfect fit so that the Byron headphone meets all requirements regarding comfort, sound and ambient noise attenuation.

*Full functionality of the 3-button remote control on Android is only available, if also the Android playback device (smartphone, tablet computer etc.) complies with the official Wired Audio Headset Specification (v1.1) under:
<https://source.android.com/devices/accessories/headset/specification.html>
On Apple devices, volume up and down buttons will not work. The middle button works as usual.
