

Apogee Duet 2 USB Audio Interface for Mac

Compatible Software:

Compatible with any Core Audio compliant application, including:

- Logic
- GarageBand
- MainStage
- Soundtrack Pro
- Pro Tools 9
- Ableton Live
- Cubase

Features / Specifications:

- USB 2.0 Mac audio interface
- 2 analog inputs; Combination Line/Mic/Instrument
- 4 analog outputs
- Balanced line outputs, +20 dBu maximum output level
- 1 Independent 1/4" stereo headphone output
- 2 Microphone preamps with up to 75dB of gain
- A/D and D/A conversion at 24-bit/192kHz
- Top panel high resolution OLED display
- Multi-function controller knob
- Two assignable top panel touch pads:
- Mute speakers, headphones or all outputs
- Assign headphones to outputs 1-2, 3-4 or low latency mixer
- Dim speakers, headphones or all outputs
- Sum to mono speakers, headphones or all outputs
- Selectable 48v phantom power, Soft Limit and phase invert

sE Electronics sE2200a II Condenser Microphone

Features / Specifications:

- **Frequency Response:** 20Hz-20KHz
- **Sensitivity:** 20 mV/PA
- **Directional Pattern:**
 - Cardioid
 - Omni
 - Figure-8
- **Impedance:** less than 200 Ohms
- **Equivalent Noise Level:** 16dBA
- **Max SPL for THD 0.5 :** 135dB
- **Supply Voltage:** Phantom power 48V±4V
- **Connector (Matching):** XLR (XLR3F)
