

MODE MACHINES MM-4

The MM-4 of the german manufacturer MODE MACHINES is a guitar/bass-effect pedal with a main focus on Chorus. With the built in knobs you can set the sensitivity how hard you have to hit the string in order to produce a modulation voltage from the envelope circuit, as well as the depth and speed of the chorus sound. With those easy to handle functions, you can make sure that it'll sound just how you would like to.

FEATURES

- Simple and intuitive layout
- Individually changeable chorus sound
- Full metal shell
- True bypass

DELIVERY

- MM-4
- User manual
