

AcoustiCube₃

acoustic
solutions
reference level

This is where it all started and it is undoubtedly regarded the reference system for acoustic instruments and the best that we can do in a small box like this – the ultimate solution for a soloist. The AcoustiCube was granted three M.I.P.A. awards so far.

In its 3rd generation now we have implemented advanced dynamic control technology and extended the dynamic range substantially. The new two-way speaker system is an incredible improvement too! It allows a much clearer and defined bass response and much lighter, more sparkling reproduction of the complete range up to finest texture.

Cube 3 is a full two channel version now allowing identical features on both channels. It needed a face-lift for more operational clarity and to allow additional important controls on the front panel.

In essence we have combined all the suggestions of Cube enthusiasts over the years with all our knowledge and experience...without compromise... and we are more than pleased.

- 120 watts, dynamic control
- two-way speaker system with 8"-diecast neodymium, kevlar® cone bass and neodymium tweeter
- Twin-channel 2-way acoustic system
- 32 bit AER digital effect processor with 100 presets
- PC Software for managing individual effect presets
- 13,00 kg (28.67 lbs)

Inputs

input 1,2 6.3 mm (1/4") multi-purpose input jack socket with mode select (piezo, line, mic, E/P mode).

Tone Controls

equalizer three band tone controls for both channels

colour 'mid-cut-treble-boost'-filter

effect 32 bit AER digital effect processor with 100 presets (can be modified via USB and PC Software).

Power

power amp 120 W / 8 ohms, dynamic control

analog signal processing subsonic filter, low distortion RMS limiter

Speaker System

two-way speaker system with 8"- diecast neodymium, kevlar® cone bass and neodymium tweeter

Features

tuner, headphones, sub, line out, L/R-out, record, master insert, adjustable aux in, presence, adjustable DI-out, send, return, ser/par. effect loop, mic input, effects-software

Accessories

padded gigbag
optional: footpedal

Specifications

cabinet 15 mm (0.59") finnish birch plywood
finish waterbased acrylic, black spatter finish
dimensions 325 mm x 335 mm x 260 mm
(12.80" x 13.20" x 10.20"), HxWxD
weight 13,00 kg (28.67 lbs)

Can be combined with

CX 8, AS Q8, AS 281, Sub 10
