## Technology of Tone

From day one Mr. Hughes and Herr Kettner have spent countless hours pouring their heart and soul into creating tonal masterpieces that deliver superior usability. Their mission is Technology of Tone: use all available technology to make great tone accessible to the discerning player. Their search for the ultimate all-tube amp resulted in TriAmp—Technology of Tone at its best—and an impressive testament

to the fact that purist tube tone, amazing tonal variety and superior usability can all be had in one extraordinary amplifier.

For TubeMeister, Mr. Hughes and Herr Kettner packed all their know-how and over a quarter of a century's passion for tube amps into a remarkably compact chassis. No wonder TubeMeister offers a wealth of sonic riches for the guitarist to mine.

Thanks to German engineering, it can go from a roar to a whisper, shaking the boards on stage, tingling spines in the studio, and raising goose-bumps in the still of night—even during silent recording!

## Family

TubeMeister 18 Head

Serving up three different sounds at the touch of a footswitch, the soulful TubeMeister 18 Head is the go-to guitar amp for gigging. Its four-step power soak brings the sound of the big stage into small clubs and your own four walls. And courtesy of the built-in Red Box and silent recording capability, you can lay down pro-quality tracks at any time day or night.

2 Channels  
18 Watts  
Dimensions: 356 x 156 x 150 mm  
(WxHxD)  
Weight: 5 kg

TubeMeister 18 Combo

The TubeMeister 18 Combo offers all the tasty features of the Head plus the shimmer and shine of a digital spring reverb. The Celestion 10" speaker was custom-designed specifically for the TubeMeister. Housed in a sophisticated Thiele-Small enclosure, it conjures a far bigger sound than anything one might expect from a combo.
