

# AG8<sub>2</sub>

pa-system  
solutions  
standard level

The AG 8<sub>2</sub> is an active loudspeaker-system making use of 'compact' system components such as: twin-cone speaker, power-amp, controller and cabinet.

Without special acoustic voicing the focus is mainly on its superb audio-abilities and thus it offers an additional range of applications as e. g.: floor/stage or keyboard monitor, self powered full-range P. A. system or in combination with modeling amps for electric guitar...

and for sure it is a valid supplement to any AER acoustic amp using twin-cone speaker technology.

- 60 watts, dynamic control
- 8" (200 mm) twin cone speaker
- multi-functional full-range system
- 7,55 kg (16.67 lbs)

## Inputs

inputs combined XLR/6.3 mm (1/4") input jack socket, 6.3 mm (1/4") input jack sockets and RCA sockets.

## Tone Controls

equalizer two band tone controls

## Power

power amp 60W / 4 ohms, dynamic control

analog signal processing subsonic filter, low distortion  
RMS limiter

## Speaker System

8" (200 mm) twin cone speaker

## Features

insert pre/post EQ, ground lift, adjustable line, mic and Aux

## Accessories

padded gigbag

## Metal housing

cabinet 15 mm (0.59") finnish birch plywood  
finish waterbased acrylic, black spatter finish  
dimensions 265 mm x 330 mm x 265 mm  
(10.40" x 13.00" x 10.40"), HxWxD  
weight 7,55 kg (16.65 lbs)
