# Sonos One SL

The speaker for stereo pairing and home theater surrounds.

- Compact design fits just about any space.
- Touch controls let you adjust volume, play and pause, or skip through songs.
- Pair with a Sonos One or another One SL for left-right stereo sound, or use a pair as rear surrounds for your home theater.
- See **Getting started** when you're ready to add a Sonos One SL to your system.

Controls and lights

∷	**Volume control**	• Touch and hold to quickly change the volume: • **Volume up** (right); **Volume down** (left).
▶‖	**Play/Pause**	• Press *once* to play or pause music. • Press and hold to add the music that's playing in another room.
∷ ▶‖ ∷	**Next/Previous**	• Swipe right across the touch controls to skip to the next song. • Swipe left to go to the previous song. **Note:** You can't skip forward or go back when listening to a radio station.
Status light		Indicates the status. For more information, see

Connector panel

Join button	Press to connect during setup.
Ethernet port	Use the supplied Ethernet cable if you want to connect to a router, computer, or network-attached storage (NAS) device (optional).
AC power (mains) input	Use only the supplied power cord (using a third-party power cord will void your warranty). **Note:** Insert the power cord firmly until it is flush with the bottom of the speaker.

Select a location

You can put your speaker just about anywhere. Here's a few guidelines:

- Sonos One SL sounds great even when placed next to a wall or on a shelf. For best performance, leave at least 1" (2.5 cm) space around the back of the speaker.
- It's *humidity*-resistant so you can use it in the bathroom.
- It's *not water*-resistant so don't put it near water or leave it in the rain.

Speaker mounts and stands
