ID 1419049402

RS 20836

RS 20846

For three Electric or Acoustic Guitars or Bases (available with Locking System or Automatic Flip System)

Intended Use

The guitar stand is meant to be used only to hold guitars or similar instruments, as described in this manual. All other uses not included and described in this manual are hereby prohibited. **Warwick GmbH & Co. Music Equipment KG** is not responsible for any damages caused by misuse or wrong applications of these stands.

Security Guidelines

- Keep children away from the guitar stand and do not let them play with it. The guitar stand is not a toy.
- Never use the guitar stand as a ladder or support frame for other things!
- Only place the guitar stand on a level and even surface. **Warwick GmbH & Co. Music Equipment KG** is not responsible for any personal and material damages caused by faulty assembly and misuse.
- This stand has been tested with various instrument finishes and found no problems. Still we advise caution with vintage instruments and nitrocellulose finishes. Sweat, environmental pollutants, nitrocellulose and age can create chemical reactions that cannot be tested or predicted, therefore we are not responsible for any damages to the surface finish resulting in these circumstances.

Collapsible Guitar Stand Assembly & Use

- Fold out all three legs.
- Put stand on an even and straight surface.
- Insert the upper tube into the bottom tri-pod assembly. Adjust the height and tighten the screw firmly (see picture on the right).
- Insert the body holder(s) into the bottom tri-pod assembly and turn it (them) until perpendicular to the upper tube.
- For RS 20830 and RS 20840, push the neck holder into the upper tube. The Neck holder also has to be perpendicular to the upper tube.
- For RS 20833 and RS 20843 as well as RS 20836 and RS 20846 place the neck holders on top of the upper tube and tighten the thumb wheel to secure them firmly.
- Place the guitar or bass in the support brace - verify that the instrument has a firm resting position and does not tilt or wobble.

Maintenance and Care

The guitar stand does not need any special maintenance. If necessary clean it with a damp cloth. If the articulations, hinges or catches (if present) get stiff, they need to be lubricated.

WARRANTY

This item has a 2-year limited warranty. In case of a warranty claim please contact your dealer.
