

DIGITAL SIGNAL PROCESSING (DSP) PRESETS

The Praxis 10 includes built-in presets, so you get the optimum sound for your venue. The advanced Digital Signal Processing (DSP) have been specially designed to enable you to get the best possible sound from your instrument, whether rehearsing or performing.

Each of the four presets have been carefully fine-tuned by professional audio engineers and are easily selected at the touch of a button.

We've taken care of the technology, so you can concentrate on making your experience the best it can be.

NORMAL

A flat frequency curve with give a natural representation of your instruments sound.

- NORMAL
- GUITAR
- KEYBOARD
- DRUMS
