

USING YOUR MIDI MAESTRO FOR THE FIRST TIME

We know you're itching to start playing with your MIDI Maestro, but there's a few things you should know!

The MIDI Maestro comes with built in presets for your BeatBuddy. You can also create and load your own custom preset with the included smartphone app.

IMPORTANT: Please make sure your BeatBuddy has the latest firmware installed for the MIDI Maestro to work properly with it. You can download the latest BeatBuddy firmware here: <https://singularsound.com/firmware>

1 The “Mode” button switches between presets.

2 To customize your own preset:

- Connect your smartphone with the MIDI Maestro: Hold down the Bluetooth Pairing button to put the MIDI Maestro in pairing mode. Go into your smart phone's bluetooth connections settings and connect to the MIDI Maestro. It will appear as something like “MC12F5B” or “MIDI Maestro” depending on the firmware version on your device.
- Download the MIDI Maestro App at www.SingularSound.com/start
- Follow the app's tutorial.

3 Make sure your MIDI Maestro is up-to-date by updating the firmware via the app.

4 Extension Pedal: You can use a dual momentary footswitch to move up and down between pages. This saves you from using one of the MIDI Maestro's buttons to get to other pages of commands when creating your custom preset. Plug your footswitch into the MIDI Maestro's Extension port with a stereo TRS cable. We recommend using the Singular Sound Footswitch+.

5 Expression Pedal: You can use an expression pedal to easily control the value of a MIDI command. (With a default BeatBuddy preset, the Expression pedal controls the tempo on your BeatBuddy.) However, when using a new expression pedal for the first time, you must calibrate it. Press the Mode button on the MIDI Maestro and then select Calibrate Exp Pedal, and follow instructions

While using your MIDI Maestro you can enter the Expression Pedal's "Clutch Mode" by holding down the lower right and middle buttons at the same time. This allows you to re-position the expression pedal without sending out MIDI commands.

The MIDI Maestro's not just easy to use, it has incredible depth for those willing to explore its more advanced features. Read the full manual at www.SingularSound.com/start

WARRANTY

The MIDI Maestro comes with a complete two year warranty. During this period we will repair or replace (at our option) defective units free of charge. Warranty does not cover intentional misuse, non-authorized modification, accident, or neglect.

The FCC compels us to warn you:

FCC Caution

§ 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CE Caution:

Hereby, Singular Sound declares that the radio equipment type Midi Maestro is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following Internet address:
