ATTACH THE PARTS

ATTACH THE PARTS

FUNCTIONS

1. POWER

Use this to switch the DD200X on or off. A power supply needs to be connected to enable the module to work.

2. INPUT

Connect the DD200X module to a power source here via the supplied 9V power supply.

3. USB

Use this to connect the DD200X to your computer.

4. L/MONO

Insert a jack cable here to connect the DD200X to your amplifier, drum monitor, interface or PA system. Please note, this is not suitable for headphones.

5. R

For a stereo output you'll need to insert an additional cable into the R jack output.

6. VOLUME

Use this wheel to control the overall volume of the DD200X.

7. SCREEN

View all module information on this screen.

8. DATA

Use this wheel to adjust the settings within the drum kit after being selected by the individual buttons below.

9. KITS

Press this button to explore the 38 drum kits on offer. In order to scroll through please rotate the data wheel to select the sound you desire.

10. SONG

Press this button to explore the 44 accompaniment songs built into the DD200X. The SCREEN will show S.01 - S.44 to display this information.

Use the PLAY/STOP button to start and stop the current song. An index of songs is available on page 9.

11. CLICK

Press this button to activate the metronome. You have the choice of several different rhythms; the screen will show C.01 - C.12 depending on the desired rhythm.

Please note, the click button can mute the drum accompaniment during SONG mode, allowing you to play along to the track.

12. TEMPO

Press this button to adjust the tempo that the metronome counts at. This also allows you to adjust the speed of the song. Pressing the tempo button will display a number on the SCREEN. Use the DATA wheel to increase or decrease this value from 40 - 250 BPM.

13. PLAY/STOP

Use this to start and stop the accompaniment.

14. HEADPHONES

Connect your 3.5mm minijack headphones here. Please ensure the volume is low before using the headphones. Once comfortable, turn up to your desired volume.

15. LINE IN

Connect external audio devices such as a laptop or mp3 player to the drum kit here. This is useful for playing along to your own music. The volume can only be controlled via the external audio device. Ensure the output volume on the external audio device is low before connecting, and then turn up to the desired volume.
