T: 01438 311625 - F: 01438 311626  
Unit 7 Arlington Business Park, Whittle Way  
Stevenage SG1 2BE

ISO-9001-2000  
International certification

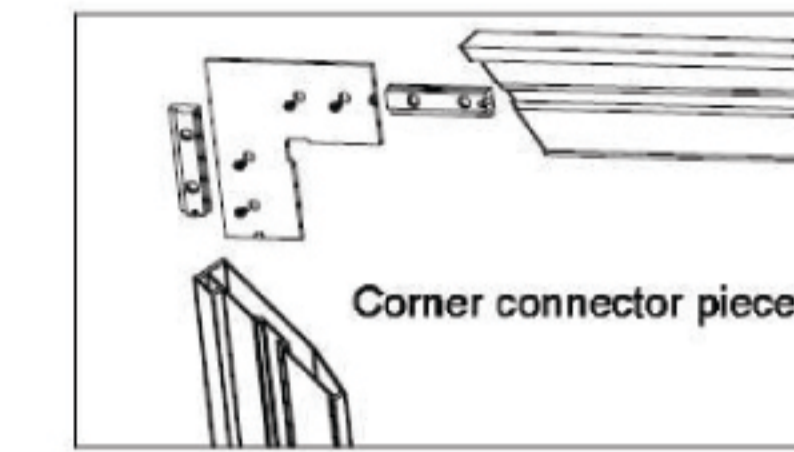

- Simple yet elegant frame fabricated from high quality aluminum alloy
- Projection surface utilizes the Grandview PS series flexible screen with mini-type and fine diamonds that work effectively to remove purple light and light waves as well as fully reverting color. This preserves contrast, image details and reduces glare. Project surface back-side utilizes special gray-scale PVC composite material. This special material filters excess light to preserve the image-presenting quality of the projection surface. The frame structure ensures a flat surface.

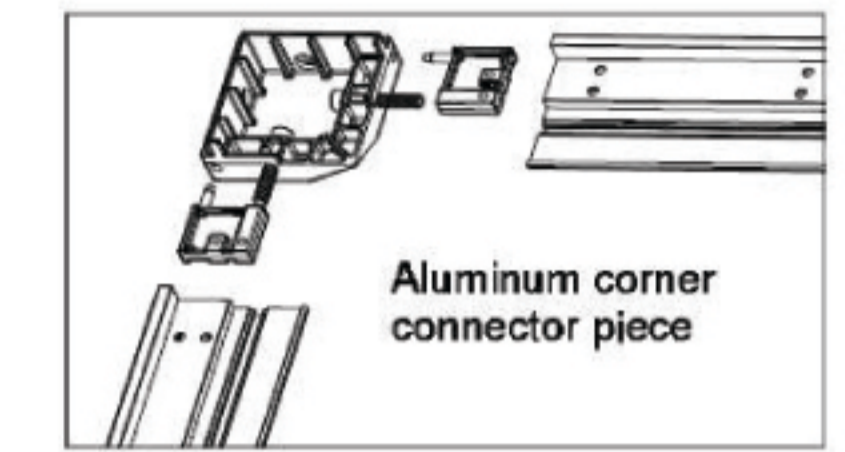

## Product Features

- The simple yet elegant frame is made from high quality aluminum alloy
- Surface structure's design ensures that the display area is stable and prevents the formation of v-wave wrinkles at the center of the screen's surface
- The projection surface utilizes the Grandview PS series flexible screen with mini-type diamond veins that removes purple-light and fully reverts color. This material preserves contrast, image details and reduces glare while also presenting a clear picture at any angle.
- The projection surface's backside utilizes a special gray-scale PVC composite material. This special material filters excess light to preserve the image-presenting quality of the projection surface. With a viewing angle of 140 degrees and gain factor of 2.2, the flexible material ensures vivid pictures and a flexible, flat surface. With Grandview's Large-Flat series screens, viewers can have a movie theatre experience right at home.
- Two sliding hooks positioned behind the projection screen allow for easy installation for a hanging wall display.
- Suitable for use in home theaters, conference areas, outdoor recreational settings, and etc.

## Product Safety

- When installing, make sure it is facing forward. the back of the screen will be labeled with a sticker.
- Please read the following as any damage to the screen surface will affect the quality of the picture:
  - 1.The frame is made with lightweight aluminum. Please handle with care.
  - 2.Avoid contact or touching the screen surface as it may cause scratches or tears.
  - 3.Do not write or draw on the surface.
  - 4.Clean the screen with a soft cloth and lukewarm water. Do not use any detergent or cleaning products.
  - 5.Use a cotton cloth to carefully wipe off the dust on the frame to prevent any damages
  - 6.If it is not in use for a long period of time, cover the screen to shut out dust and dirt.
- To prevent unnecessary damage, the operating and maintenance of the screen should be done by adults.

## Warnings

Ignoring the safety warnings may lead to injuries and/or damaging the product.

Fixtures should be installed in a secure place to avoid accidents or the screen falling.

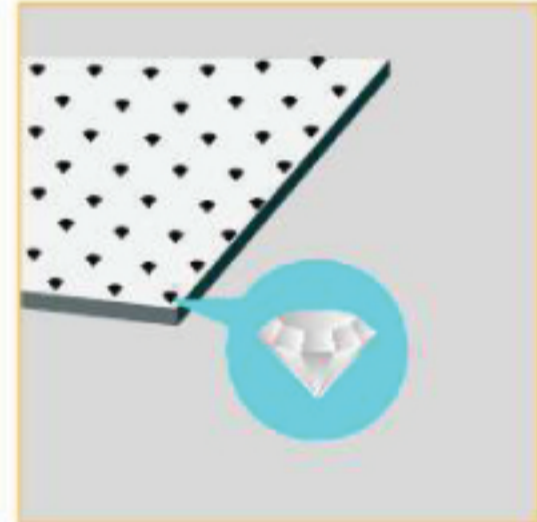

Please contact your local dealer for repairs or maintenance. Please contact our company if you have any further questions. Avoid taking apart the fixtures yourself. Loose parts may cause the screen to fall.

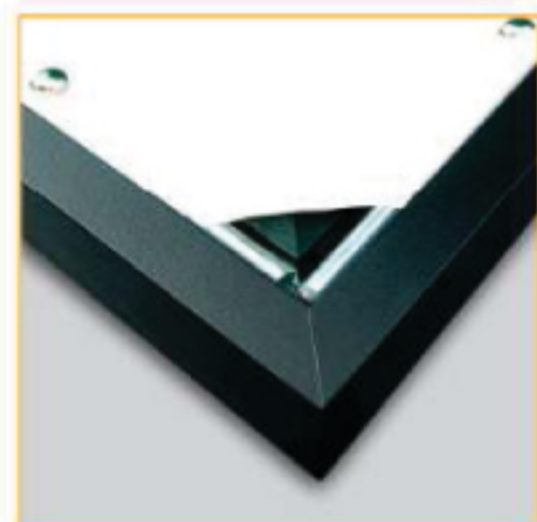

Refrain from hanging anything on the screen as it may cause the screen to fall.
