HOME ENTERTAINMENT GUIDE

**Compact and portable Bluetooth speakers** The easy and flexible way to bring sound to any space.

**A new dimension in TV viewing** Speaker bars enhance your TV experience with striking sound along with extended connectivity options.

**Slim AV micro systems** Elegance and entertainment anywhere, with easy Bluetooth streaming from your mobile devices.

**Connectivity without borders** Place your audiovisual components wherever you want and enjoy entertainment in any room you choose.

**Wireless Bluetooth speakers with integrated rechargeable batteries** Enjoy the freedom of indoor and outdoor listening.

# WELCOME HOME

You have your own style, your own tastes, dreams and aspirations. Your home is as distinctive as you are, an expression of your unique personality. Your home entertainment should be just as individual. In these pages you'll find the audiovisual components you need to create a home entertainment experience like no other. From compact stereo systems to reference grade home cinema equipment. Featuring intuitive connectivity that enables you to enjoy your favourite entertainment in any room, anytime. Whatever your entertainment wishes, you can make them come true. Welcome home.

# AV RECEIVERS & PACKAGES

Sounds and images that come to life. Audiovisual receivers and packages from Pioneer are designed to turn your favourite movies, sports events, concerts, games and music into unforgettable experiences. Choose a package of paired components or select from a wide range of models in the VSX series or the top-of-the-line SC-LX series. With state-of-the-art features including high-resolution audio file support, gapless playback, 4K Ultra HD video and multi-zone functionality, the multichannel receiver line-up has something for every set of needs. Most are compatible with mobile devices for easy music streaming and control. All are designed for intuitive operation. And all are engineered to deliver sounds and images with striking vibrancy and vitality.

## AV RECEIVERS

Image after Dolby Atmos firmware update

### ▲ SC-LX88-K/S

9.2-channel Reference AV Receiver with audiophile-grade Class D amplification, MCACC Pro – the most precise automatic sound calibration system –, AIR Studios sound tuning and Dolby Atmos upgradable\* surround | 260 W/ch (4 ohm/1 kHz), 850 W simultaneous output | HDMI 8 in/3 out | Ultra HD (4K/60p) upscaling and pass-through | Multi-zone capability (HDMI HDzone) | All-channel SABRE<sup>32</sup> Ultra DAC | Asynchronous 192 kHz/32 bit USB-DAC | 192 kHz/32 bit audio scaler | Hi-bit 32 audio processing | Hi-Res audio streaming: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC, 5.6 MHz and 2.8 MHz DSD, multichannel 5.0/5.1 24 bit/96 kHz WAV/FLAC | Gapless playback | AirPlay | DLNA | MHL | Spotify Connect | vTuner | Built-in Bluetooth with aptX | Wi-Fi converter included | ECO mode | Built-in AVNavigator | Controllable via iControlAV5.

\* A firmware update may be required to enable Dolby Atmos.

Audio equipment tuned by AIR Studios represents the international reference in high-fidelity sound. AIR Studios and Pioneer cooperate to fine-tune selected components for truly outstanding purity and fidelity.

The latest and most powerful MCACC sound calibration technology fully supports the most recent surround formats, including the new Dolby Atmos. It uses sensitive measuring to allow adjustment of all speakers, including ceiling speakers, for breathtaking cinematic and audiophile precision.

To deliver the full potential of uncompressed sources like Blu-ray Discs and other high-resolution audio content, the SC AV Receivers are equipped with Direct Energy HD amplifiers. Using exceptionally short signal paths, they enable audiophile-grade Class D amplification.

With Dolby Atmos\*, sound comes alive from all directions, including overhead, to fill the home theater with astonishing clarity, power, detail and depth.

The industry benchmark for digital-to-analogue conversion. The SABRE DAC produces crystal-clear sound and eliminates jitter, so the signal remains free of digital artefacts.

### ▲ VSX-924-K/S

7.2-channel Network AV Receiver | 150 W/ch (6 ohm/1 kHz) | HDMI 7 in/2 out | Ultra HD (4K/60p) upscaling and pass-through | Multi-zone capability (HDMI HDzone out) | SABRE Premier Audio DAC | Hi-bit 24 audio processing | Hi-Res audio streaming: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC, 2.8 MHz DSD, multichannel 5.0/5.1 24 bit/96 kHz WAV/FLAC playback | Gapless playback | AirPlay | DLNA | MHL | iPod/iPhone digital direct via Front USB | Spotify Connect | vTuner | Built-in Bluetooth with aptX | Wi-Fi converter included | Advanced MCACC sound calibration | ECO mode | Built-in AVNavigator | Controllable via iControlAV5.

### VSX-824-K ▶

5.2-channel Network AV Receiver | 130 W/ch (6 ohm/1 kHz) | HDMI 6 in/1 out | Ultra HD (4K/60p) pass-through | 192 kHz/24-bit DAC | Hi-Res audio streaming: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC | Gapless playback | AirPlay | DLNA | MHL | iPod/iPhone digital direct via Front USB | Spotify Connect | vTuner | Built-in Bluetooth with aptX | Wi-Fi ready (optional converter AS-WL300 required) | Auto MCACC sound calibration | ECO mode | Controllable via iControlAV5.

### ▲ VSX-529-K/S

5.2-channel Network AV Receiver | 130 W/ch (6 ohm/1 kHz) | HDMI 6 in/1 out | Ultra HD (4K/60p) pass-through | 192 kHz/24-bit DAC | Hi-Res audio streaming: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC | Gapless playback | AirPlay | DLNA | MHL | iPod/iPhone digital direct via Front USB | Spotify Connect | vTuner | Bluetooth and Wi-Fi ready (with optional adapter/converter) | Auto MCACC sound calibration | ECO mode | Controllable via iControlAV5.

### VSX-424-K

5.1-channel AV Receiver | 130 W/ch (6 ohm/1 kHz) | HDMI 4 in/1 out | Ultra HD (4K/60p) pass-through | 192 kHz/24-bit DAC | iPod/iPhone digital direct via Front USB | Auto MCACC sound calibration | ECO mode.

### VSX-329-K

5.1-channel AV Receiver | 105 W/ch (6 ohm/1 kHz) | HDMI 4 in/1 out | Ultra HD (4K/60p) pass-through | 192 kHz/24-bit DAC | iPod/iPhone digital direct via Front USB | ECO mode.

### ◀ VSX-S510-K/S/W

Slim Network 6.2-channel AV Receiver | 110 W/ch (4 ohm/1 kHz) | HDMI 6 in/1 out | Ultra HD (4K/30p) pass-through | 192 kHz/24 bit DAC | Hi-Res audio streaming: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC | Gapless playback | AirPlay | DLNA | MHL | iPod/iPhone/iPad digital direct via Front USB | Spotify Connect | vTuner | Wi-Fi and Bluetooth ready (with optional converter/adaptor) | Auto MCACC sound calibration | ECO mode | Controllable via iControlAV5.

### VSX-S310-K/S

5.2-channel Slim AV Receiver | 110 W/ch (4 ohm/1 kHz) | HDMI 4 in/1 out | Ultra HD (4K/30p) pass-through | 192 kHz/24 bit DAC | iPod/iPhone digital direct via Front USB | Auto MCACC sound calibration | ECO mode.

The digital streaming service Spotify allows on-demand access to millions of songs. With the Spotify App (installed on a mobile digital device) and a Spotify Premium subscription, you can stream music to your compatible network-enabled Pioneer AV system using Spotify's Connect feature. For application and subscription information, as well as service availability in your country check [www.spotify.com](http://www.spotify.com). For details, visit [pioneer.eu/spotify](http://pioneer.eu/spotify).

Compatibility with AirPlay allows easy access to an existing iTunes music library on a computer or mobile device to play the music through the AV Receiver.

An MHL-compatible HDMI connection enables streaming of high-quality video (including high-definition 3D content) and audio from a MHL capable Android device using a single cable.

4K Ultra HD Pass-through

All Pioneer AV Receivers are designed for the next generation resolution standard, with the ability to pass through Ultra HD video signals with maximum 4K/60p/24 bit\* quality to compatible displays. Additionally, the advanced models (as of VSX-924) can upscale analogue and HDMI video signals for 4K Ultra HD resolution when used with the latest 4K displays.

\*The Slim models VSX-S310/VSX-S510 and the VSX-324-K-P (HTP-072/HTP-073) support pass-through of up to 4K/30p video signals.

All Pioneer AV Receivers – except the Slim models VSX-S310/VSX-S510 and the VSX-324-K-P (HTP-072/HTP-073) – are equipped with the newest HDMI with 4K@60/50 Hz support.

ECO Mode

An energy-saving ECO Mode is featured on all Pioneer AV Receivers, reducing power consumption without compromise to audio quality. The energy-saving ECO Mode 1 is suitable for playing CDs, 2-channel audio files and internet radio. The more energy-efficient ECO Mode 2 also works with movies, live concerts and other surround content.

All Pioneer network-enabled AV Receivers support best-in-class high-resolution audio file playback via network/USB, including 192 kHz/24-bit WAV, FLAC, AIFF as well as 96 kHz/24-bit Apple Lossless audio files. Models from the VSX-924 upward support DSD music file playback as well as 5.1/5.0 multichannel playback of 96 kHz/24-bit WAV and FLAC files via network/USB.

## ◀ SC-LX88

There is more than one side to fine design. The ports on the rear side of Pioneer AV Receivers feature a clear layout. Individual connections are grouped according to purpose.

iControlAV5

**iControlAV5** The convenient iControlAV5 App allows easy control of all important functions directly from a smartphone or tablet. The app is available at no cost from the App Store for iPhone, iPad and iPod touch. It is also available in Google Play for Android devices.

## ACCESSORIES

### ◀ AS-BT200

The AS-BT200 Bluetooth adapter is a simple solution to add Bluetooth audio communication to your AV Receiver. Connect it through a proprietary port on the back of a compatible Pioneer receiver, connect the A2DP profile Bluetooth enabled device and get ready to enjoy your music as you never could before.

### ◀ AS-WL300

Add wireless local network connectivity to your compatible AV Receiver. Using the AS-WL300, you can establish a wireless LAN connection by connecting it to the Ethernet port and a dedicated USB power port on the back of the receiver. Both WPS and manual set-up are available. This way, you can enjoy network audio without extra wires.

# BLU-RAY DISC PLAYERS & HOME CINEMA

Blu-ray, DVD, Super Audio CD, HD audio/video-streams – the selection of home entertainment sources and formats is greater than ever. Whatever your collection includes, the Pioneer disc player line-up lets you choose the right model to get the most out of it. From DVD players to our new reference-level LX-series Blu-ray Disc players, all are designed for easy operation using a remote control or your mobile device. The top models even upscale films to breathtaking 4K and feature compatibility with DSD (Direct Stream Digital) high-resolution audio files. Whichever player you select, you can look forward to fascinating home entertainment in outstanding quality.

## BLU-RAY DISC PLAYERS

### ▲ BDP-LX88-K/S

Reference Blu-ray Disc/Universal player with supreme audio and video reproduction including 4K upscaling | Three chamber anti-vibration design with extra rigid construction, layered chassis and customised rigid & quiet drive | Super-resolution 4K up-converter | High-end SABRE<sup>32</sup> Reference DAC | Precision Audio | Dual HDMI output | PQLS Bit-stream jitterless output with compatible Pioneer AV Receiver | DLNA | Hi-Res audio streaming: 192 kHz/24 bit AIFF/FLAC/WAV, 2,8 MHz DSD | Media/file playback support includes Blu-ray, DVD, CD, Super Audio CD, DVD-Audio, 3GP, FLV, MPEG, AVI, WMV, DivX+ HD, MKV, FLAC, WMA, MP3, DSD | Controllable via iControlAV5.

### ▲ BDP-LX58-K/S

Reference Blu-ray Disc/Universal player with supreme audio and video reproduction including 4K upscaling | Three chamber anti-vibration design with extra rigid construction, layered chassis and customised rigid & quiet drive | Super-resolution 4K up-converter | Dual HDMI output | PQLS Bit-stream jitterless output with compatible Pioneer AV Receiver | DLNA | Hi-Res audio streaming: 192 kHz/24 bit AIFF/FLAC/WAV, 2,8 MHz DSD | Media/file playback support includes Blu-ray, DVD, CD, Super Audio CD, DVD-Audio, 3GP, FLV, MPEG, AVI, WMV, DivX+ HD, MKV, FLAC, WMA, MP3, DSD | Controllable via iControlAV5.

### ◀ BDP-450

Network Blu-ray 3D player with superior audio reproduction | PQLS Bit-stream jitterless output with compatible Pioneer AV Receiver | DLNA | Stream Smoother Link | IP Control | Qdeo Video Processor | Dual HDMI output | Super Audio CD and DVD-Audio playback | Wi-Fi ready (with optional converter AS-WL300) | Controllable via iControlAV5.

### ◀ BDP-170-K/S/W

Network Blu-ray 3D Player with built-in Wi-Fi | Wi-Fi Direct with Miracast support | DLNA | HDMI 1080p/24 Hz output | 36-bit Deep Colour | Stream Smoother Link | Sound Retriever Link | Quick Start and Quick View (x1.5) with audio function | 192 kHz/24-bit DAC | Media/file playback support includes Blu-ray, DVD, CD, Super Audio CD, 3GP, FLV, MPEG, AVI, WMV, DivX+ HD, MKV, FLAC (not via network), WMA, MP3 | YouTube "Send to TV" | Controllable via iControlAV5.

### Contemporary elegance in perfect harmony

With their sleek housings in matching white, the BDP-170-W Blu-ray 3D player and VSX-S510-W AV Receiver make an ideal combination.

## DVD PLAYERS

# HOME CINEMA SYSTEMS

Push the limits of home entertainment. Enjoy Blu-ray movies in stunning 3D quality with gripping surround audio right in your living room. And there is more. A lot more: A Pioneer home cinema system is a complete media centre that gives you access to your entire network. In addition to Blu-ray Discs and DVDs, you can play CDs and Super Audio CDs. Or you can access music, videos and photos stored on external devices. Connect your hard drive, USB device, iPod, iPhone or iPad conveniently via the front-panel USB port (systems in the Advanced series even offer Wi-Fi connectivity).

## ADVANCED SERIES

### ▼ MCS-838

5.1-channel Network Blu-ray 3D Home Cinema System with 1000 W total power | 4 HDMI in/1 out | Built-in Wi-Fi Direct | DLNA | vTuner | FM tuner | Multi format playback via USB/Network | 4 tall speakers, 1 centre speaker and 1 slim subwoofer.

### MCS-434

5.1-channel Network Blu-ray 3D Home Cinema System with 1000 W total power | 4 HDMI in/1 out | Built-in Wi-Fi Direct | DLNA | vTuner | FM tuner | Multi format playback via USB/Network | 4 compact satellite speakers | 1 centre speaker | 1 slim subwoofer.

### MCS-FS232

2.1-channel Network Blu-ray 3D Home Cinema System with 510 W total power | 4 HDMI in/1 out | Built-in Wi-Fi Direct | DLNA | vTuner | FM tuner | Multi format playback via USB/Network | 2 slim speakers | 1 slim subwoofer.

## Wi-Fi Direct™

Enables direct wireless access to music, photos and video, without passing through a home network. Wi-Fi Direct allows easy connection between your mobile device and a Blu-ray Disc player. No router is needed.

## Miracast™

A groundbreaking solution for seamlessly transferring multimedia content between devices without cables or a network connection. Wi-Fi certified Miracast™ enables you to view content stored on your compatible smartphone or tablet on a TV screen.

Integrated in the YouTube app, the "Send to TV" function allows pairing of a mobile device with a Blu-ray Disc player to view YouTube videos on the big screen.

# ESSENTIAL SERIES

## ▲ MCS-737

5.1-channel Network Blu-ray 3D Home Cinema System with 1000 W total power | 4 HDMI in/1 out | DLNA | Multi format playback via USB/Network | 4 tall speakers | 1 centre speaker | 1 large subwoofer.

## MCS-FS131

2.1-channel Blu-ray 3D Home Cinema System with 510 W total power | 4 HDMI in/1 out | DLNA | Multi format playback via USB/Network | 2 compact satellite speakers | 1 subwoofer.

# SPEAKER BARS

Television with rich, room-filling sound – without the need for a complex surround speaker setup. That is what Pioneer speaker bars are all about. These elegant speaker bars enhance your viewing experience with audio in fascinating depth and detail. True to Pioneer’s heritage and expertise in audio technology, the systems feature multiple speaker drivers that create soundscapes in uncompromising clarity and authenticity – full and colourful in the lower ranges, thrillingly detailed in the high range. Bluetooth connectivity allows wireless music streaming from your mobile devices, and all models (except the SBX-300) feature Wi-Fi Direct, Miracast, DLNA and YouTube capabilities. It all adds up to a viewing experience you never imagined your TV could offer.

## ▲ SBX-N700/N750

Network AV Speaker Bar System with 2 x optical in, 1 x analog in (Stereo mini-jack), IR out, twin subwoofer drivers and additional wireless subwoofer | 220 W total power output | Easy multimedia streaming with built-in Bluetooth and Wi-Fi | Wi-Fi Direct, Miracast and DLNA support | YouTube “Send to TV” function | Full connectivity with USB, network and HDMI with ARC | Controllable via Pioneer ControlApp | Pioneer Wireless Streaming App support | Available in matte (SBX-N700) or high-gloss (SBX-N750) finish.

SBX-N750 high-gloss finish

## SBX-N500/N550

Network AV Speaker Bar System with 2 x optical in, 1 x analog in (Stereo mini-jack), IR out, powerful twin subwoofer drivers | 140 W total power output | Easy multimedia streaming with built-in Bluetooth and Wi-Fi | Wi-Fi Direct, Miracast and DLNA support | YouTube “Send to TV” function | Full connectivity with USB, network and HDMI with ARC | Controllable via Pioneer ControlApp | Pioneer Wireless Streaming App support | Available in matte (SBX-N500) or high-gloss (SBX-N550) finish.

## ◀ SBX-300

Speaker Bar System with twin subwoofer drivers | 130 W total power output | Easy audio streaming with built-in Bluetooth | Stereo mini-jack, 2 x optical in/ 1 x coaxial in | Pioneer Wireless Streaming App support.

# STEREO COMPONENTS

Pure stereo excellence for true stereo purists. Pioneer draws on decades of experience in setting new audio quality standards. Audiophiles value Pioneer systems for their exceptional stability, precision and ultra-quick responsiveness. Our new generation of stereo components combines Pioneer's traditional high-end audio values with the latest state-of-the-art technology, including outstanding digital-to-analogue conversion circuits and sophisticated Direct Energy HD amplifier modules. Choose from amplifiers or network players, Super Audio CD players or a USB-DAC with integrated headphone amp. And look forward to pure stereo listening pleasure.

## ◀ N-70A-S/K

Reference Network Audio Player with asynchronous up to 384 kHz/32 bit and DSD 5.6 MHz USB-DAC, Twin SABRE<sup>32</sup> Ultra DAC, headphone amplifier and 3.5" LCD colour display | Rigid three chamber design | Twin transformers with shield case | Hi-bit 32 audio signal processing with 384 kHz upsampling | Full range Hi-Res audio playback including 5.6 MHz DSD and 384 kHz PCM | AirPlay | DLNA | Controllable via Pioneer ControlApp.

## ◀ A-70-S/K

Reference Stereo Amplifier with AIR Studios sound tuning and asynchronous 192 kHz/32 bit USB-DAC | 2 x 90 W high efficiency power MOSFET Class D amps | SABRE<sup>32</sup> Ultra DAC | Separated construction for preamp and power amp | Isolated Power Supply | Twin Block Shield Transformers | Source Direct Mode | MM/MC Phono input.

## A-50-S/K ▶

Audiophile-grade stereo amplifier with rigid symmetrical construction for the purest sound reproduction | 2 x 90 W high efficiency power MOSFET Class D amps | Aluminium panels | Power Amp Direct Mode | Source Direct Mode | MM Phono input.

## N-50A-S/K ▶

Audiophile-grade Network Audio Player with asynchronous 192 kHz/32 bit USB-DAC, twin SABRE<sup>32</sup> Ultra DAC and 3.5" LCD colour display | Rigid construction and twin transformers | Hi-bit 32 audio signal processing with 192 kHz upsampling | Full range Hi-Res audio playback including 5.6 MHz DSD and 192 kHz PCM | AirPlay | DLNA | Controllable via Pioneer ControlApp.

## PD-50-S/K ▶

Audiophile-grade Super Audio CD Player with 192 kHz/32 bit twin DAC and Hi-bit 32 audio signal processing | Direct construction with separate shield structure and twin transformers | DSD disc playback | iPod/iPhone/iPad digital direct via Front USB.

# AMPLIFIERS/SUPER AUDIO CD PLAYERS/ NETWORK AUDIO PLAYER

## A-30-K/S

Stereo amplifier with symmetrical construction | 2 x 70 W Direct Energy Class AB amps | Aluminium panels | Power Amp Direct Mode | Source Direct Mode | MM phono input.

## A-20-K/S

Stereo amplifier with symmetrical construction | 2 x 50 W Direct Energy Class AB amps | Aluminium panels | Source Direct Mode | MM phono input.

## A-10-K/S

Stereo amplifier with symmetrical construction | 2 x 50 W Direct Energy Class AB amps | Source Direct Mode | MM phono input.

## N-30-K/S

High-quality Network Audio Player with AirPlay, DLNA support, Front USB and 2.4" LCD colour display | Hi-Res audio streaming via USB/Network: 192 kHz/24 bit WAV/FLAC/AIFF, 96 kHz/24 bit ALAC | Gapless playback | Wi-Fi ready (with optional adapter AS-WL300) | Controllable via Pioneer ControlApp.

## PD-30-K/S

Super Audio CD Player with direct construction and separate shield structure | DSD disc playback | iPod/iPhone/iPad digital direct via Front USB.

## PD-10-K/S

Super Audio CD Player with direct construction and separate shield structure | DSD disc playback | iPod/iPhone/iPad digital direct via Front USB.

# STEREO RECEIVER

## ▲ SX-20-S/K

High Power Stereo Receiver with 2 x 100 W | AM/FM tuner with RDS | MM phono equaliser | Large A/B speaker terminals | Aluminium front panel.

# TURNTABLES

## ◀ PL-30-K

Fully automatic Stereo Turntable with double layered chassis for precise tracking | Phono EQ through mode | Exchangeable headshell | Anti-skating adjuster.

## PL-990

Fully automatic Stereo Turntable with built-in phono equaliser | Low-mass straight tone arm | Universal-type cartridge connector.

# USB-DAC/HEADPHONE AMPLIFIER

## ◀ U-05-S

**SABRE<sup>32</sup> DAC**

**Hi-Res AUDIO**

Audiophile-grade USB-DAC/Headphone Amplifier with asynchronous 384 kHz/32 bit USB-DAC with 384 kHz PCM/5.6 MHz DSD support, Twin SABRE<sup>32</sup> Ultra DAC and Hi-bit 32 audio signal processing with 384 kHz upsampling | ASIO 2.1 and 5.6 MHz DSD file playback | Up to 32 bit/384 kHz PCM file playback | 6 digital input terminals: USB-B, 2 x coaxial, 2 x optical, AES/EBU | XLR/RCA output with fixed and variable volume.

# COMPACT COMPONENTS

Expansive sound, manageable size. Compact components from Pioneer are designed to blend in with any interior design. The systems combine a power-packed 2-channel receiver, featuring extensive network audio capabilities, with a perfectly matched CD player or network audio player. The resulting solutions deliver much more than meets the eye. Common to both sets is the SX-P01 receiver, featuring Direct Energy HD amplification. Adding high-quality, 2-way speakers and the audiophile CD player PD-P01, featuring a 192 kHz/32-bit DAC for pure high-fidelity, creates the P1 set. Add the new N-P01 network audio player and you have a complete, multisource sound system. And if CDs are no longer your music medium of choice, you can select the P2 set, which relies on a network audio player. Either way, you will have a powerful source of high-fidelity stereo in compact form. Because space restrictions shouldn't restrict your audio experiences.

# SPEAKERS

Hearing is believing. Music, movies, sports or concerts – the total experience of audiovisual entertainment and pure listening can only be as convincing, exciting and inspiring as the sound your speakers produce. From stereo to enveloping, multichannel surround sound, Pioneer offers systems of all sizes and configurations to match your equipment and your preferences. Using both traditional and high-tech materials as well as cutting-edge audio technology, we craft speakers that set standards. Get ready for a sound experience you can truly believe in.

## S-ES21-LR-T/K ▶

# MICRO SYSTEMS

Small size. Refined styling. Amazing sound. Composed by no more than a single main unit and a pair of two-way bass-reflex speakers, Pioneer micro systems fit virtually anywhere. The surprisingly powerful components combine high-quality audio with a wide array of features, including state-of-the-art connectivity and easy operation via your mobile device. Big advantages in a small package, that is what Pioneer micro systems stand for.

## ▲ X-HM82-K/S
