

## STYLE, PERFORMANCE & FUNCTION. . .

These are all characteristics of the world's finest designs. The Roksan **K3** series employs all of these traits and retains the inherent musicality that has consistently been our trademark throughout our prolific history.

Combining visual elegance with audiophile performance, the **K3** series offers the ultimate in musical involvement, audio engineering and user flexibility.

Conceived to offer a complete audiophile solution for the modern era, the **K3** series from Roksan comprises some of the finest sounding and stylish audio components available today.

## ROKSAN K3 SERIES A CONTEMPORARY APPROACH TO AN ESTABLISHED BENCHMARK

For over ten years, our Kandy and K2 ranges have consistently been globally recognised as the best entry-level audiophile products available. The numerous industry awards and plaudits collected during this period are testament to this.

Now we proudly introduce the much-anticipated K3 range, which retains all of the existing celebrated attributes of the K2 Series - such as its world-beating sound quality, build and design - yet takes them all one significant step further.

The new K3 range is not merely a rebadged existing series. Extensive research and development has been employed both internally and externally to the K3 series. The striking new aesthetic design of the range gives the K3 series a fresh, modern and elegant look.

Built in our HQ and factory in London, in addition we have utilized the best suppliers and parts available (such as superb quality, German-machined front panels) to result in an exceptionally high quality finish for the range's price point.

Of course, there is more to the new K3 than just looks. The sound of all products in the range has been notably improved to raise the bar even higher than our already elevated established level. To add to this, greater connectivity is achieved through the standard inclusion of aptX Bluetooth wireless compatibility.

We insist on employing only the best designers available to ensure the finest sounding finished product. Selective use of high quality components and a fresh approach to electronic design mean that the K3 Series delivers the most musically involving, audiophile performance yet.

## ROKSAN K3 SERIES THE K3 CD PLAYER

The K3 CD Player takes its base as the established, best-selling K2 CD Player and uses upgraded electronics to deliver a fuller and wider sound with increased detail retrieval and a smoother, more 'analogue' sound.

This excellent source component proves that there are still many hours of enjoyment to be received from your CD collection. Vocals are clean and lyrical whilst rhythms are solid and fast providing an all-round involving performance that will have you playing your discs for years to come.

### Highlights:

- Elegant new chassis design
- Superior build quality
- High quality PCM1798 24bit / 192kHz DAC
- High precision, custom made Master Clock Crystal
- 110 Ohm balanced gold plated XLR digital output
- 75 Ohm RCA gold plated RCA digital output
- Optical Toslink digital output
- Gold plated RCA analogue outputs
- Front loading CD drawer
- Fully functioning display - time elapsed, time remaining on track and disc
- Programme facility
- Repeat function (1/All & A-B)
- Random play
- 10 second intro play

### Specifications:

Operating System	CD Digital Audio System (CD, CD-R, CD-RW)
Frequency Response	20Hz - 20kHz $\pm$ 0.2dB
Harmonic Distortion	< 0.002% @ 0dB, 1kHz < 0.006% @ -30dB, 1kHz < 0.002% @ 0dB, 20Hz < 0.008% @ 0dB, 20kHz
Intermodulation Distortion	< 0.0015% @ 0dB
S/N Ratio (IHF-A Wtd.)	< 96dB L&R
Wow & Flutter	Quartz Precision
Channel Separation	100 dB @ 1kHz 80 dB @ 20kHz
Output Voltage	2.2Vrms
Digital Outputs	75 $\Omega$ Coaxial (RCA) 110 $\Omega$ Balanced AES/EBU (XLR) Optical (Toslink)
D/A Conversion	PCM1730E Advance Segment, Audio-Stereo DAC
Resolution/Sampling	24 bits / 192 kHz
Oscillation	3rd Overtone Oscillation
Crystal	Super Precision, Custom Made
Jitter	< 150 psec
Idle Pattern	< -107dB L&R
Stop Band Rejection	< -98 dB
Power Supply	High Performance Low Noise Toroidal Transformer. 7 Fully Regulated Power Rails
Power Source	220V-240V, 50Hz
Power Consumption	< 15 W
Dimensions	432 x 380 x 90mm (WxHxD) 432 x 380 x 105mm (Incl. Feet)
Weight	9kg

## ROKSAN K3 SERIES THE K3 INTEGRATED AMPLIFIER

With its elegant new design and inclusion of aptX Bluetooth input as standard, the K3 is truly an amplifier to today's discerning audiophile. There is power and bass drive in abundance, along with superb sound staging and engaging detail. You can stream music via any Bluetooth enabled device and the aptX coding allows streaming of high resolution audio files from a compatible source.

To add to its versatility there is also a Moving Magnet phono input and five line level inputs. Most of all, the K3 Integrated Amplifier offers excellent value for money when it comes to build, design, flexibility and sound quality. A true High-End performance is assured!

### Highlights:

- Elegant new chassis design with improved ventilation
- Superior build quality
- Improved power and detail
- Symmetrical amplifier layout
- High quality signal output relays
- Improved power supply layout
- Directly powered power amp section from the mains power supply
- Switchable bypass input
- New op amps, audio and power supply circuits and layouts

### Specifications:

Inputs	Line Level (x5) Moving Magnet (x1) Bluetooth (x1) Bypass (x1)
Bluetooth	aptX
Input Impedance	47k $\Omega$
Input Sensitivity	line input: 440mV @ 140W/8Ohm
Outputs Speaker	L & R (x1) Preamplifier (x1) Headphone (x1)
Output Power	>140W into 8Ohm, >220W into 4Ohm
Power Supply	550VA Ultra Low Noise Toroidal Transformer 5 Regulated Supply Rails.
Frequency Response	(-3dB), <3Hz - >100kHz
Gain	37.5dB (75x)
Harmonic Distortion	<0.005% 1kHz - 14W @ 8 Ohms
Power Consumption	Standby: <25W Full Power 2-CH: 8 $\Omega$ <330W, 4 $\Omega$ <550W
Signal to Noise ratio	line: >90dB
Dimensions	432 x 380 x 90mm (W x D x H) 432 x 380 x 102mm (Incl. Feet)
Weight	14kg
