

# Sibelius 7.5

The fastest, smartest, easiest way to write music

Sibelius® is the world's best-selling music notation software, trusted by top composers, publishers, and students alike. With Sibelius 7.5, you can express, accelerate, and promote your creativity in more ways than ever before, enabling you to deliver beautiful, professional scores faster and share audio and video versions of your work—with stunningly realistic musical phrasing—to make your talent stand out from the crowd. It's the fastest, smartest, easiest way to write music for live performance, film and television, media entertainment, or in the classroom.

## New in Sibelius 7.5

### Unrivalled expressiveness and feel

With the unique and fully redesigned Espressivo 2.0 feature, Sibelius 7.5 gives you complete control over and customization of the rhythmic feel of any individual part to produce more expressive and realistic musical phrasings. And because the software can now better interpret such notation distinctions as tempo markings, metric emphasis, grace notes, mordents, caesuras, and breath marks on playback, you can hear every nuance of your score—the way you intended it to be heard.

### Accelerated navigation

With the new Timeline window, you get a quick view of the entire structure of your score—no matter how large or complex—enabling you to navigate to any part fast for editing or playback. Simply click on any bar, in the timecode ruler, or on any landmark—the important objects that make up your score, including rehearsal marks, repeat structures, comments, key signatures, tempo, and more—to jump immediately to that section.

### Easy collaboration and sharing

Get all of the score sharing and social media features of Sibelius First in Sibelius 7.5, enabling you to collaborate more easily with others and distribute your compositions for the world to hear. Share scores through email, upload and publish them as sheet music on ScoreExchange.com, and even share your composition as a video or audio file on YouTube, Facebook, and SoundCloud.

### Export video of your composition

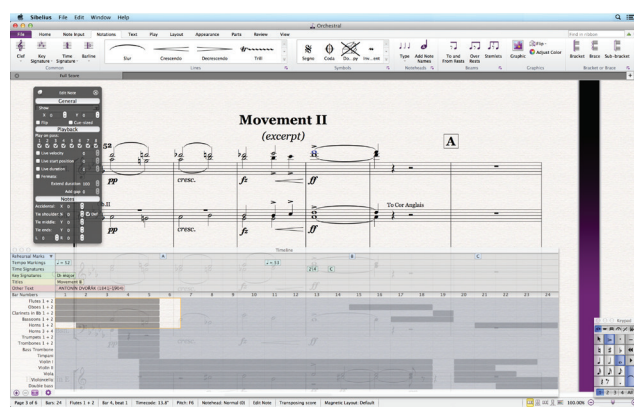

Save a video file of your score to share your work with others on a DVD or online. Sibelius can export in a variety of resolutions—up to 1080p—in QuickTime format (.mov) on Mac or Windows Media Video (.wmv) on Windows, enabling others to see and hear your work without requiring Sibelius.

### Full Scorch app integration

Export Sibelius scores directly to Avid Scorch® on your iPad (available on iTunes) for fully interactive playback, practice, performance, and publishing. Sibelius automatically optimizes your score for iPad display, paying special consideration to page orientation, number of staves, margin sizes, and more.

### Localized for Brazil and Russia

If Brazilian Portuguese or Russian is your native tongue, Sibelius 7.5 offers native support for these languages in addition to English, French, German, Italian, Spanish, Japanese, and Simplified Chinese.

## Minimum system requirements

### Windows

- Windows 7 or Windows 8 (32- or 64-bit)
- 1+ GB of RAM
- 750 MB hard disk space for Sibelius software only; 36 GB additional hard disk space for the Sibelius Sounds library (optional installation)
- DVD-ROM drive (box versions only)

### Mac

- Mac OS X 10.6, 10.7, 10.8, or 10.9
- 1+ GB of RAM
- 750 MB hard disk space for Sibelius software only; 36 GB additional hard disk space for the Sibelius Sounds library (optional installation)
- DVD-ROM drive (box versions only)

## Recommended requirements for the Sibelius Sounds library\*

### Windows

- Intel Core 2 Duo or better (or equivalent)
- 4+ GB of RAM
- 40 GB hard disk space (SSD preferred)
- ASIO-compatible soundcard

### Mac

- Intel Core 2 Duo or better
- 4+ GB of RAM
- 40 GB hard disk space (SSD preferred)

\* You can use Sibelius Sounds if your computer doesn't meet the recommended requirements, but you may find that you cannot use as many sounds simultaneously, and that sounds take a long time to load.
