Download the Mark Levinson Headphones App

## TURN ON

Press and Hold (>1 second) Bluetooth button to power ON.  
The battery level will be displayed at startup.

To conserve battery power, the headphones will power OFF after 3 hours of inactivity.

## NOISE CANCELING / AMBIENT AWARE

Select your default ANC and Ambient Aware settings in the Mark Levinson Headphones App.

**Active Noise Canceling (ANC) / Ambient Aware Modes**  
Press to switch between modes

**Bluetooth Pairing/ Power ON/OFF**

**Pairing**

 White light will pulse when headphones are in pairing mode

 A solid white light indicates you are connected

## PAIRING

The first time you power ON your headphones they will enter pairing mode.  
Simply connect through your Bluetooth menu on your device and select "Nº 5909".

To manually activate pairing mode, power headphones OFF, then hold ON/OFF button for 4 more seconds. Access Bluetooth settings on your source device. Locate Nº 5909 and connect. A solid white light indicates you are connected.
