CP2V overview

The vintage styled CP2V is a track and program audio dynamics compressor plug-in that oozes character and attitude. With an interface designed with simplicity in mind and multi-stage analogue modeled processing adding smooth saturating harmonics.

You'll find it equally at home smashing drums, taming vocals or enhancing acoustic guitar. Without a doubt our 'gooiest' sounding compressor so far!

System requirements

Windows: Windows 10 64bit
OSX: OS X 10.9+ 64bit Intel and ARM
Formats: VST2, VST3, Audio Unit, AAX

Installation

Download the latest installer from **http://www.mellowmuse.com/CP2V**. Without a valid license the plugin will run in demo mode, inserting silence in the audio output at random intervals.

Authorize online

On purchase you will be emailed a serial number. With an active network connection in place, load the plugin in your DAW and click the info (i) button in the bottom right hand corner. Enter the email address you used when purchasing and the serial number. The plugin will connect with our server to authorize.

Authorize offline

You can also login and download your license files via our user area at: **http://www.mellowmuse.com/user**. Unzip the downloaded xxx.lic file and place in the following folder:
Windows: /Program Files/Mellowmuse/Licenses
Macintosh: /Library/Application Support/Mellowmuse/Licenses
