SPRING

FILENAME	DESCRIPTION
AMBBird_DESERT-Afternoon Breeze Birds Moderate_B00M_3DS08_2.0.wav	Singular Bird sings constantly at a moderate distance during a consistently breezy but calm afternoon. Other birds and distant woodpeckers heard at times. No insects present.
AMBBird_DESERT-Birds Insect Drone V1_B00M_3DS08_2.0.wav	Birds calling and singing during a calm day with consistent but distant insect drone throughout. Greater Roadrunner cooing and Gambel's Quail heard at times.
AMBBird_DESERT-Birds Insect Drone V2_B00M_3DS08_2.0.wav	Birds calling and singing closely during a calm day with consistent and varying flying insect drone throughout. Light and consistent breeze throughout.
AMBBird_DESERT-Cactus Wren_B00M_3DS08_2.0.wav	A Cactus wren sings from atop a nearby cactus during a calm morning. Other bird species also heard throughout. Light breeze at times.
AMBBird_DESERT-Dawn Birds Calm_B00M_3DS08_2.0.wav	Calm dawn birdsong on the Sonoran Desert. Light faint breeze at times. Distant Roadrunner and Owls heard at times.
AMBBird_DESERT-Dawn Breeze Canyon_B00M_3DS08_2.0.wav	Dawn birdsong and light breeze in a desert canyon. Greater Roadrunner heard cooing distantly throughout.
AMBBird_DESERT-Dusk Birds_B00M_3DS08_2.0.wav	Birds sing vibrantly at dusk. Drone of flying insects throughout. Subtle breeze heard consistently. Woodpecker picking at cactus heard at times.
AMBBird_DESERT-Gila Woodpecker Calls_B00M_3DS08_2.0.wav	Gila Woodpeckers heard calling at various distances during a calm morning. Other bird species call and sing throughout.
AMBBird_DESERT-Gila Woodpecker Drums_B00M_3DS08_2.0.wav	Gila Woodpeckers heard drumming at various distances during a calm morning. Other bird species call and sing throughout. Occasional distant flying insects.
AMBBird_DESERT-Morning Birds Close V1_B00M_3DS08_2.0.wav	Birds heard flying to and eating on nearby bushes and cacti during a calm morning.
AMBBird_DESERT-Morning Birds Close V2_B00M_3DS08_2.0.wav	Multiple birds heard calling, flying, and eating on nearby bushes and cacti during a calm morning. Faint light breeze and flying insects at times.
AMBBird_DESERT-Morning Birds Spacious_B00M_3DS08_2.0.wav	Birds heard calling and singing in a spacious canyon. Faint insect droning heard throughout. Occasional tonal breeze.
AMBBird_DESERT-Morning Calm Birds_B00M_3DS08_2.0.wav	Birds call and sing at a variety of distances during a calm morning. Light intimate breeze rustles brush at times.
AMBBird_FOREST-Afternoon Birds Busy_B00M_3DS08_2.0.wav	Birds call and sing at various distances during a varying afternoon breeze. Flying insects heard at moderate to close distances throughout. Leaf rustle and lightly falling forest debris heard occasionally.
AMBBird_FOREST-Afternoon Breeze Coniferous_B00M_3DS08_2.0.wav	Gentle breeze blows through a coniferous forest. Birds calling and singing at moderate distances throughout. Crickets heard at times.
AMBBird_FOREST-Afternoon Breeze Deciduous_B00M_3DS08_2.0.wav	Gentle breeze blows through a deciduous forest. Birds calling and singing at moderate distances throughout. Flying insects at times. Lightly falling forest debris heard occasionally.
AMBBird_FOREST-Afternoon Calm Breeze Birds_B00M_3DS08_2.0.wav	Western Meadowlarks and other species of birds call and sing in a coniferous forest in the afternoon. Consistent calm breeze heard throughout.

SEASONS OF EARTH  
SPRING

FILENAME	DESCRIPTION
AMBBird_FOREST-Bird Activity Close_B00M_3DS08_2.0.wav	Birds land and fly off of a nearby perch in a calm forest. Detailed movement and calls heard throughout. Distant birds, waterfowl, woodpeckers, squirrels, and drumming grouse heard at times.
AMBBird_FOREST-Dawn Birds Breeze V1_B00M_3DS08_2.0.wav	Early dawn in a mixed northern forest. Birds heard throughout. Consistent distant breeze throughout. Drumming Grouse and flying insects heard occasionally. Gently falling forest debris heard at times.
AMBBird_FOREST-Dawn Birds Breeze V2_B00M_3DS08_2.0.wav	Early dawn in a mixed northern forest. Birds heard throughout. Gentle breeze building throughout. Distant waterfowl and flying insects heard occasionally. Gently falling forest debris heard at times.
AMBBird_FOREST-Dawn Birds Dove_B00M_3DS08_2.0.wav	Doves call at dawn along with multiple other species of birds in a spacious mixed forest. Tonal breeze occasionally. Flying droning insects, turkeys, woodpeckers, and owls distantly audible at times.
AMBBird_FOREST-Dawn Birds Owls_B00M_3DS08_2.0.wav	Early dawn calm in a mixed forest. Barred Owls, Turkeys, and Birds heard throughout. Occasional light distant breeze and distant woodpeckers. Gently falling forest debris and crickets heard at times.
AMBBird_FOREST-Dusk Birds_B00M_3DS08_2.0.wav	Birds heard calling and singing at dusk. Woodpeckers, Waterfowl, and Grouse heard at times. Occasional flying insects and distant tonal breezes. Leaf rustle, close bird activity, and lightly falling forest debris heard occasionally.
AMBBird_FOREST-Morning Birds Active_B00M_3DS08_2.0.wav	Birds call and sing in a spacious forest at morning. Woodpeckers and Crows audible at various distances throughout. Light gentle breeze, flying insects, and distant owls audible at times.
AMBBird_FOREST-Woodpecker Calm_B00M_3DS08_2.0.wav	Woodpeckers drum and call in a calm forest. Large flying insects drone at a distance occasionally, crickets heard at times. Distant faint lake lap and tonal breezes heard occasionally.
AMBBird_LAKE-Afternoon Birds Insects_B00M_3DS08_2.0.wav	Birds sing busily during a breezy afternoon. Flying insects heard throughout. Leaf rustle, falling forest debris, and distant wave lap heard at times.
AMBBird_LAKE-Dawn Birds Frogs_B00M_3DS08_2.0.wav	Birds sing and call at dawn with frogs chirping throughout. Grouse heard drumming at times. Occasional fish heard jumping. Gently falling forest debris, light breeze, and accumulating dripping dew heard at times.
AMBBird_LAKE-Dawn Breeze Birds_B00M_3DS08_2.0.wav	Birds sing and call vibrantly at dawn with Spring Peepers heard throughout. Light and calm breeze heard blowing through leaves at times. Distant Grouse, jumping fish, and flying insects heard occasionally.
AMBBird_LAKE-Dusk Birds Calm_B00M_3DS08_2.0.wav	Birds sing and call at dusk. Occasional bird flyovers and distant loons. Distant Spring Peepers heard throughout. Ground insects, grouse drumming, and fish jumping at times.
AMBBird_PRAIRIE-Afternoon Birds Breeze_B00M_3DS08_2.0.wav	Many birds sing and call during a hot afternoon with a gentle intimate breeze. Rustling of brush and flying insects heard at times.
AMBBird_PRAIRIE-Afternoon Birds Spacious Breeze_B00M_3DS08_2.0.wav	Birds sing at various distances during the afternoon with a spacious and varying breeze. Flying insects and rustling leaves heard at times.
AMBBird_PRAIRIE-Cliff Swallows_B00M_3DS08_2.0.wav	A large number of Cliff Swallows fly around and call as they eat insects outside their Cliff-side nests. Other species of birds heard throughout. Light wind and flying insects heard at times.
AMBBird_PRAIRIE-Dawn Birds Spacious Breeze_B00M_3DS08_2.0.wav	Many birds sing spacioously at dawn with an occasional light breeze.
AMBBird_PRAIRIE-Dog Colony_B00M_3DS08_2.0.wav	A colony of Prairie Dogs chirp and call on a warm afternoon. Gentle to moderate breeze at times. Birds heard calling and singing in the distance. Flying insects heard occasionally.

SPRING

FILENAME	DESCRIPTION
AMBBird_PRAIRIE-Morning Birds Breeze_B00M_3DS08_2.0.wav	Birds vibrantly call and sing at various distances at morning with an occasional light breeze. Bird activity close at times. Crickets gently chirp throughout. Owls and waterfowl heard distantly at times.
AMBBird_PRAIRIE-Morning Breeze Owls_B00M_3DS08_2.0.wav	Owls hoot from a nearby tree during a breezy morning. Many other birds heard at various distances throughout along with crickets chirping. Flying insects heard distantly at times.
AMBBird_PRAIRIE-Oasis Insects Birds Breeze_B00M_3DS08_2.0.wav	Flying insects drone and fly around a prairie oasis, pollinating flowers nearby plants. Birds sing at various distances throughout. Occasional light breeze shaking leaves on nearby trees.
AMBBird_PRAIRIE-Pre Dawn Birds _B00M_3DS08_2.0.wav	Birds begin to sing at pre-dawn. Crickets heard intermittently. Distant owls heard at times. Light gentle breeze throughout.
AMBBird_PRAIRIE-Pre Dawn Owls Birds_B00M_3DS08_2.0.wav	Owls hoot and birds start to sing at pre-dawn. Crickets audible throughout. Light breeze at times.
AMBBird_PRAIRIE-Western Meadowlark Close_B00M_3DS08_2.0.wav	A Western Meadowlark calls from a nearby branch at dawn. Many other birds audible throughout. Slight breeze at times.
AMBBird_PRAIRIE-Wind Grasses Birds V1_B00M_3DS08_2.0.wav	A gusty breeze blows through tall grasses as birds sing vibrantly. Ring-necked pheasant heard at times.
AMBBird_PRAIRIE-Wind Grasses Birds V2_B00M_3DS08_2.0.wav	A strong gusty breeze blows through tall grasses as birds sing vibrantly. Ring-necked pheasant and geese heard at times.
AMBBird_PRAIRIE-Wind Oasis Birds Close_B00M_3DS08_2.0.wav	A gusty and varying wind blows through a large Cottonwood tree next to a prairie oasis. Birds sing and call from nearby branches. Small wave lap heard at times. Flying insect droning heard at times.
AMBBird_RAIN-Light Birds Close_B00M_3DS08_2.0.wav	Light rain falls consistently as a bird calls and sings from a nearby branch. Crickets and flying insects audible times.
AMBBird_RAIN-Light Birds Spacious_B00M_3DS08_2.0.wav	Light rain falls as birds sing and call in a spacious forest. Woodpeckers heard at times.
AMBBird_WETLANDS-Afternoon Wind Birds_B00M_3DS08_2.0.wav	Birds call and sing at various distances in a small wetland area during a windy afternoon. Occasional water lap audible at times.
AMBBird_WETLANDS-Dawn Birds Calm_B00M_3DS08_2.0.wav	Birds calmly call and sing at dawn in a small wetland area. Bird Fly-bys heard at times. Distant Sharp-Tailed Grouse heard displaying occasionally.
AMBBird_WETLANDS-Dawn Birds Close_B00M_3DS08_2.0.wav	Birds call and sing closely at dawn in a small wetland area. Slight breeze occasionally. Sharp-Tailed Grouse heard displaying at a distance at times.
AMBBird_WETLANDS-Dawn Birds Insects_B00M_3DS08_2.0.wav	Birds call and sing at various distances in a small wetland area. Sharp-Tailed Grouse heard displaying at a distance at times. Small flying insects audible throughout
AMBBird_WETLANDS-Dawn Birds Intense Distant_B00M_3DS08_2.0.wav	Many waterfowl and birds call and sing distantly in a large wetland area. Slight breeze at times. Multiple bird fly-overs throughout.
AMBBird_WETLANDS-Dawn Birds Intense_B00M_3DS08_2.0.wav	Hundreds of birds and waterfowl call and sing at various distances during dawn in a large wetland area. Faint breeze, close bird activity, and frogs at times.

SEASONS OF EARTH  
SPRING

FILENAME	DESCRIPTION
AMBBird_WETLANDS-Morning Bird Activity Close_B00M_3DS08_2.0.wav	Birds call, sing, take-off, land, and splash at a close distance in a small wetland area. Slight breeze at times. Sharp-Tailed Grouse heard displaying occasionally. Crickets heard intermittently.
AMBBird_WETLANDS-Morning Breeze Birds Close_B00M_3DS08_2.0.wav	Birds call and sing closely in a small wetland area during the morning. Crickets chirp intermittently. Slight breeze at times.
AMBBird_WETLANDS-Morning Breeze_B00M_3DS08_2.0.wav	Birds sing and call at various distances during a lightly breezy morning. Birds in-flight, landing, and taking off at times. Sharp-Tailed Grouse heard displaying occasionally. Crickets heard intermittently.
AMBBird_WETLANDS-Pre Dawn Birds Breeze_B00M_3DS08_2.0.wav	Birds begin to gently sing during pre-dawn at a seasonal alpine wetland with a gentle breeze. Water lapping on grasses, woodpeckers, and flying insects heard at times.
AMBBird_WETLANDS-Pre Dawn Birds_B00M_3DS08_2.0.wav	Birds begin to gently sing during pre-dawn at a seasonal alpine wetland. Occasional water lapping on grasses and bird fly-bys heard at times.
AMBDsrt_DESERT-Afternoon Bugs Wind Birds_B00M_3DS08_2.0.wav	Flying insects buzz consistently while birds call and sing at various distances in an afternoon breeze. Rustling brush heard occasionally.
AMBDsrt_DESERT-Afternoon Calm_B00M_3DS08_2.0.wav	A Gila Woodpecker drums, picks at, and calls on nearby cactus as birds call and sing distantly during a calm and still afternoon. Flying insects heard at times. Occasional light breeze.
AMBDsrt_DESERT-Afternoon Wind Birds Distant_B00M_3DS08_2.0.wav	Birds sing distantly during a moderately windy afternoon. Stronger gusts at times. Squeaking cactus and rustling brush heard occasionally.
AMBDsrt_DESERT-Insects Birds Close_B00M_3DS08_2.0.wav	Various species of flying insects buzz closely as a bird calls and sings from a close cactus branch. Costa's Hummingbird heard at times.
AMBForst_DESERT-Dawn Birds Breeze_B00M_3DS08_2.0.wav	Birds call and sing at dawn during a light but consistent breeze.
AMBForst_FOREST-Afternoon Birds Insects_B00M_3DS08_2.0.wav	Birds call and sing during a calm afternoon breeze. Flying insects heard prominently at various distances throughout. Leaf rustle, lightly falling forest debris, and frogs heard occasionally.
AMBForst_FOREST-Afternoon Breeze Mixed_B00M_3DS08_2.0.wav	Gentle but varying breeze blows through a mixed deciduous and coniferous forest. Birds calling and woodpeckers at moderate distances at times. Lightly falling forest debris, light branch knocks, and leaf rustle heard throughout.
AMBForst_FOREST-Afternoon Wind Varying_B00M_3DS08_2.0.wav	A Moderate wind builds and subsides in a mixed forest. Woodpeckers birds, and frogs heard at times. Lightly falling forest debris, branch knocks, and leaf rustle heard occasionally.
AMBForst_FOREST-Evening Crickets Breeze_B00M_3DS08_2.0.wav	A gentle and varying breeze blows through a coniferous forest at night. Calming crickets heard throughout. Lightly falling forest debris and rustling small mammals heard occasionally.
AMBForst_FOREST-Evening Crickets_B00M_3DS08_2.0.wav	Crickets heard calmly chirping in a coniferous forest. Light breeze and distant night-birds heard at time. Lightly falling forest debris and close crickets heard occasionally.
AMBForst_FOREST-Flying Insects Birds_B00M_3DS08_2.0.wav	Multiple species of flying insects buzz consistently at close and moderate distances. Distant birds heard throughout. Light breeze and rustling leaves at times.
AMBForst_FOREST-Pre Dawn Calm_B00M_3DS08_2.0.wav	Pre-dawn calm in a mixed forest. Distant birds and crickets throughout, gentle leaf rustle at times. Occasional Barred Owl hoots.

SEASONS OF EARTH  
SPRING

FILENAME	DESCRIPTION
AMBForst_FOREST-Pre Dawn Owls_B00M_3DS08_2.0.wav	Quiet pre-dawn in a mixed forest featuring distant Eastern Whip-poor-will, barred owl hoots, and occasional frogs in a distant pond. Gentle leaf rustle at times.
AMBForst_FOREST-Woodpecker Breeze_B00M_3DS08_2.0.wav	Woodpeckers drum at various distances during a calm breeze. Gentle leaf rustle heard throughout. Frogs heard at times. Distant grouse drumming occasionally.
AMBRurl_PRAIRIE-Dawn Birds Busy_B00M_3DS08_2.0.wav	Many species of birds sing and call during a busy dawn chorus. Owls, waterfowl, and pheasants heard at times. Occasional light breeze.
AMBRurl_PRAIRIE-Dawn Coyote Close_B00M_3DS08_2.0.wav	A singular Coyote howls closely as many birds sing at dawn. A distant pack of Coyotes responds with energetic howls.
AMBRurl_PRAIRIE-Dawn Coyotes_B00M_3DS08_2.0.wav	A pack of distant Coyotes howl as birds begin to wake and sing at dawn. Ring-necked Pheasant and Owls heard at times.
AMBRurl_PRAIRIE-Dusk Calm Breeze_B00M_3DS08_2.0.wav	Birds sing consistently at a moderate distance with a gentle breeze at dusk. Flying insects and rustling brush heard throughout. Ring-necked pheasants heard at times.
AMBRurl_PRAIRIE-Dusk Quiet_B00M_3DS08_2.0.wav	Birds sing faintly as night begins on the prairie. Flying insects, rustling brush, and faint breeze at times.
AMBRurl_PRAIRIE-Night Frogs Crickets Breeze_B00M_3DS08_2.0.wav	A frog croaks intermittently during the night at a prairie oasis. Crickets and persistent but varying breeze heard throughout.
AMBRurl_PRAIRIE-Wind Conifers Birds V1 _B00M_3DS08_2.0.wav	A varying wind blows through a stand of prairie conifers. Birds heard singing and calling at various distances thought. Crickets gently chirping consistently. Occasional pine needles heard faintly falling at times.
AMBRurl_PRAIRIE-Wind Conifers Birds V2_B00M_3DS08_2.0.wav	A moderately strong wind builds and blows through a stand of prairie conifers. Birds heard singing and calling at various distances thought. Crickets chirping consistently. Occasional pine needles heard faintly falling at times.
AMBSwmp_LAKE-Afternoon Calm Grouse_B00M_3DS08_2.0.wav	A Grouse drums closely as birds sing and call at moderate distances throughout. Moderate breeze, flying insects, and lightly falling forest debris heard at times.
AMBSwmp_LAKE-Afternoon Wind Loons_B00M_3DS08_2.0.wav	Loons and other birds call at a moderate distance during a windy afternoon. Wind is deep but mostly distant. Lightly falling forest debris and Spring Peepers heard at times.
AMBSwmp_LAKE-Dawn Calm Fish V1_B00M_3DS08_2.0.wav	Birds begin to sing and call at dawn as fish jump in a large lake. Owls hoot throughout. Lake has tall, steep, reflective banks creating echoes of birds, fish, and owls. Coyotes heard howling distantly at times.
AMBSwmp_LAKE-Dawn Calm Fish V2_B00M_3DS08_2.0.wav	Birds sing and call at dawn as fish jump in a large lake. Close bird activity, flying geese, and droning insects at times. Owls hoot throughout. Lake has tall, steep, reflective banks creating echoes of birds, fish, and owls.
AMBSwmp_LAKE-Morning Birds Close V1_B00M_3DS08_2.0.wav	Birds heard calling and moving on nearby branch during a still morning. Distant loons, squirrels, and woodpeckers heard at times.
AMBSwmp_LAKE-Morning Birds Close V2_B00M_3DS08_2.0.wav	Birds heard calling and moving on nearby branch during a slightly breezy but calm morning. Distant loons, squirrels, woodpeckers, fish jumping, and grouse heard at times.
AMBSwmp_LAKE-Morning Birds Spacious_B00M_3DS08_2.0.wav	Birds call and sing spacioously from lakeside trees. Light breeze at times. Woodpeckers, squirrels, and waterfowl heard throughout. Grouse drumming and small mammals rustling heard at times.

SEASONS OF EARTH  
SPRING

FILENAME	DESCRIPTION
AMBSwmp_LAKE-Morning Breeze Woodpeckers_B00M_3DS08_2.0.wav	Birds call and sing during a calm morning with a light breeze. Loons chirp and woodpeckers drum throughout. Grouse drumming, lightly falling forest debris, small mammals rustling, and fish jumping heard at times.
AMBSwmp_LAKE-Night Breeze_B00M_3DS08_2.0.wav	A calm night with Spring Peepers, distant Loons, and crawling insects. Occasional light breeze, grouse calling and drumming, and distant wave lap.
AMBSwmp_LAKE-Night Calm_B00M_3DS08_2.0.wav	A calm night featuring a mating pair of Loons, Spring Peepers and frogs, and occasional insects crawling.
AMBSwmp_LAKE-Pre Dawn Fish Owls_B00M_3DS08_2.0.wav	Owls hoot distantly as fish jump during a still pre-dawn. Faint bird activity heard at times. Very distant outlet of lake faintly heard throughout.
AMBSwmp_LAKE-Wave Lap Busy Leaves_B00M_3DS08_2.0.wav	Varied waves lap busily against shore at a moderate distance during windy afternoon. Rustling leaves and grasses throughout. Bird activity, lightly falling debris, frogs, and flying insects at times.
AMBSwmp_LAKE-Wave Lap Calm_B00M_3DS08_2.0.wav	Small waves lap against a rocks during a calm but breezy afternoon. Woodpecker drumming, leaves and grasses rustle and lightly falling forest debris heard at times. Little bird activity or flying insects.
AMBSwmp_LAKE-Wave Lap Distant_B00M_3DS08_2.0.wav	Distant varying wave lap is heard during a breezy but calm afternoon. Leaf rustle and lightly falling forest debris heard at times. Little bird activity or flying insects.
AMBSwmp_LAKE-Wave Lap Spacious_B00M_3DS08_2.0.wav	Various sizes of waves lap against shore during a calm afternoon. Light calm breeze rustling lakeside grasses heard occasionally. Bird activity and flying insects at times.
AMBSwmp_LAKE-Wave Lap Variable_B00M_3DS08_2.0.wav	Varied waves gently lap against shore on a calm afternoon. Bird activity, leaves rustling, and flying insects at times.
AMBSwmp_WETLANDS-Calm Night_B00M_3DS08_2.0.wav	A calm night on the edge of a large wetland. Frogs heard chirping and croaking at moderate distances throughout. Insects and frogs heard crawling on ground at times.
AMBSwmp_WETLANDS-Wind Reeds Gentle_B00M_3DS08_2.0.wav	A variable and gusty breeze blows through large reeds on the edge of a wetland area. Birds call and sing throughout. Occasional flying insects.
AMBSwmp_WETLANDS-Wind Reeds V1_B00M_3DS08_2.0.wav	Wind blows through large reeds on the edge of a wetland. Wind is strong at times. Birds call and sing at various distances throughout. Occasional flying insects.
AMBSwmp_WETLANDS-Wind Reeds V2_B00M_3DS08_2.0.wav	A strong and persistent wind blows through large reeds on the edge of a wetland. Birds call and sing at various distances throughout. Occasional flying insects.
ANMLAmph_WETLANDS-Afternoon Frogs Breeze V1_B00M_3DS08_2.0.wav	Frogs chirp on the edge of a wetland area in the late afternoon breeze. Crickets chirp throughout. Occasional bird activity.
ANMLAmph_WETLANDS-Afternoon Frogs Breeze V2_B00M_3DS08_2.0.wav	Frogs chirp at a moderate distance on the edge of a wetland area in the late afternoon breeze. Crickets chirp pleasantly at times.
ANMLAmph_WETLANDS-Night Frogs Busy_B00M_3DS08_2.0.wav	Many frogs chirp during a still evening in a large wetland area. Wilson's Snipe "winnowing" overhead throughout. Distant faint rushing of a small creek audible. Water soaked grasses heard delicately moving during a light breeze at times.
ANMLAmph_WETLANDS-Night Frogs Intense V1_B00M_3DS08_2.0.wav	Frogs chirp closely and consistently during a still evening. Occasional small mammals rustling and distant waterfowl. Insects, worms, and frogs heard crawling on leaves and hopping into water at times.

SEASONS OF EARTH  
SPRING

FILENAME	DESCRIPTION
ANMLAmph_WETLANDS-Night Frogs Intense V2_B00M_3DS08_2.0.wav	Frogs chirp closely during a still evening. Frogs can be heard stopping and starting becoming synchronized throughout. Insects and frogs heard crawling on leaves at times.
ANMLAmph_WETLANDS-Night Frogs Large_B00M_3DS08_2.0.wav	Large frogs croak consistently from both sides of a small pond. Slight breeze through distant forest at times
ANMLAmph_WETLANDS-Night Frogs Owls_B00M_3DS08_2.0.wav	Many Spring Peepers and other frogs chirp during a still evening. Owls hooting throughout. Insects and frogs heard crawling on leaves throughout.
ANMLInsc_LAKE-Dusk Cricket Close_B00M_3DS08_2.0.wav	A nearby cricket chirps at dusk as birds call at a moderate distance. Fish jumping, rustling leaves, flying insects, Grouse, and distant breeze at times.
ANMLInsc_PRAIRIE-Night Crickets_B00M_3DS08_2.0.wav	Crickets chirp pleasantly and consistently at a moderately close distance at night. Slight relaxing breeze at times.
ANMLInsc_WETLANDS-Afternoon Mosquito Drone_B00M_3DS08_2.0.wav	Mosquitos drone on the edge of a small wetland area. Birds calling and singing at various distances and gentle breeze throughout. Water lap, flying insects and crickets heard at times.
ANMLInsc_WETLANDS-Night Frogs Crickets_B00M_3DS08_2.0.wav	Frogs and crickets chirp as evening falls over a small wetland area. Slight breeze throughout.
ANMLRdnt_FOREST-Squirrel Chatter_B00M_3DS08_2.0.wav	An isolated red squirrel chatters from atop a nearby tree. Distant birds heard throughout.
BIRDFowl_WETLANDS-Bird Activity Close V1_B00M_3DS08_2.0.wav	Birds fly by and land on a nearby branch. Various calls and songs audible throughout. Woodpeckers audible at times.
BIRDFowl_WETLANDS-Bird Activity Close V2_B00M_3DS08_2.0.wav	Active energetic birds on a nearby branch. Various calls and songs audible throughout. Woodpeckers audible at times.
BIRDSea_LAKE-Loon Calls Day Birds_B00M_3DS08_2.0.wav	A Loon calls during a calm day with an exceptional reverberation. Other birds calling throughout. Occasional flying insects.
BIRDSea_LAKE-Loon Goose Flyover_B00M_3DS08_2.0.wav	A singular loon flies over while vocalizing, followed shortly by a goose flying over while vocalizing. Other birds heard at a moderate distance throughout.
BIRDSea_LAKE-Loon Night Activity Varied V1_B00M_3DS08_2.0.wav	Multiple Loons calling and responding to each other. Reverberation tail is mostly long but occasionally unpredictable. Spring Peepers heard at a distance and insects heard crawling on ground and fluttering.
BIRDSea_LAKE-Loon Night Activity Varied V2_B00M_3DS08_2.0.wav	Multiple Loons calling and responding to each other. Reverberation is exceptionally long. Many Spring Peepers and other species of frogs heard throughout at various distances. Insects heard crawling on ground at times.
BIRDSea_LAKE-Loon Splash Display_B00M_3DS08_2.0.wav	A Loon engages in a display by repeatedly splashing and calling simultaneously during a still night. Dew can be heard accumulating and occasionally dripping throughout. Spring peepers audible at a distance.
BIRDSea_LAKE-Loon Territory Display_B00M_3DS08_2.0.wav	A Loon engages in an energetic territorial display at night. Spring Peepers heard distantly throughout.
BIRDSea_LAKE-Loons Night Frogs_B00M_3DS08_2.0.wav	A mating pair of Loons calls loudly during a still night. Spring Peepers heard throughout. Large moths heard crawling on ground and fluttering at times. Distant Grouse heard drumming occasionally.
