Cinematic TV Sound Made Easy

Turn your TV into a home cinema with great ease of use. Because this soundbar features an HDMI-ARC input with HDMI-CEC support, you need just one cable to connect to your TV and now the soundbar will automatically turn on when your TV is turned on, allow you to simply control the volume with your TV remote and automatically turn off when the TV is turned off*. It is that simple. With specially crafted wide-range speaker drivers, a precision engineered housing and a powerful wireless subwoofer, it brings cinematic sound with deep bass to your living room. Place the bar below your TV or hang it on the wall so you can always enjoy better sound whenever you turn on your TV.

240W
max**Audio output power in
Watt at maximum volume**

When you want to be immersed, power does matter. The maximum audio power is what makes your movie or music experience truly immersive. Be moved, every time.

Dolby Audio**The established surround
standard for home theater**

Dolby Audio, the most widely used surround sound technology, offers a consistent and great surround sound experience in your living room.

**Experience ground shaking
bass with the wireless subwoofer**

A great movie experience is nothing without earth shattering explosions or deep roaring engines during a car chase. The wireless subwoofer provides ground shaking bass and can easily be put in a corner of your room without any wiring to the soundbar.

HDMI™
HIGH DEFINITION MULTIMEDIA INTERFACE**HDMI with ARC**

HDMI with Audio Return Channel (ARC) makes connecting and using your soundbar with your TV easier than ever before with just a single cable.
