Premium design. Great gaming. Easy control.

- Premium design. Packed for the future.
- Epic gaming. Ultra-low latency 120 Hz. G-sync, VRR, Freesync
- Android TV. The Google Assistant. Works with Alexa.
- Muirhead leather-backed remote with motion sensor

PHILIPS

Highlights

4 sided Ambilight

Our next-generation Ambilight makes the experience of watching an OLED+ TV even more magical. The Ambilight halo around the TV is more detailed and better defined than ever, changing colour in perfect sync with the colours on screen. It's so immersive, you'll wonder how you enjoyed TV without it.

Sound by Bowers & Wilkins

A beautiful 5.1.2 Bowers & Wilkins sound enclosure brings thrillingly rich, lifelike performance to whatever you watch or listen to. Up-firing and surround speakers send sound up and around for audio that's even more immersive. The iconic tweeter-on-top design keeps dialogue and vocals pristine.

P5 Picture Engine with AI

Twin processors with AI deliver a picture so real it feels like you could step right into it. A

deep-learning algorithm processes images in a manner similar to the human brain. No matter what you're watching, you get lifelike detail and contrast, rich colour, and smooth motion.

Beautiful viewing in any light

Blacks are stunning, and a beautifully bright picture means you'll see every detail in shadow or light in pixel-perfect HDR. If you're watching in a brightly lit room, your TV automatically adjusts, so you always get the best experience.

Premium design

The virtually bezel-free screen and angled Bowers & Wilkins sound enclosure make a real statement. The sound enclosure is wrapped in Kvadrat speaker fabric, and the backlit remote is trimmed with soft, sustainably sourced Muirhead leather. Our packaging and inserts use recycled cardboard and paper.

IMAX Enhanced

Welcome to Hollywood! Your Philips OLED+ TV lets you experience the full impact of films originally made to play in IMAX cinemas. Immerse in a far greater sense of scale. See more in every scene. Combined with Ambilight, you're in for a movie night to remember.

Dolby Vision and Dolby Atmos

With Dolby Vision and Dolby Atmos on board, your films, shows and games look and sound incredible. See the picture that the director wanted you to see — no more disappointing scenes that are too dark to make out! Hear every word clearly. Experience sound effects like they're really happening around you.

DTS Play-Fi compatible

Philips Wireless Home System powered by DTS Play-Fi lets you connect to compatible wireless speakers around your home in seconds. Listen to a film in the kitchen while you fix a snack. Play music anywhere. Keep up with the match commentary if you have to leave the room.

Specifications
